2020 ANNUAL CONFERENCE
CAPL/FORENSIC SECTION
April 19-22, 2020
Fairmont Banff Springs
Banff, AB
ANNUAL CONFERENCE ▼
CAPL/FORENSIC SECTION

As a professional organization concerned with advancement of the science and practice of medicine in the specialty of forensic psychiatry, CAPL has established an annual conference devoted to promote standards of practice and further the continuing education of practicing forensic psychiatrists. The CAPL Annual Conference has now been a tradition since 1995. Held annually in the spring, this conference features a 4-day core scientific program and pre-conference seminars.

GOALS ▼

The conference provides attendees with an excellent opportunity to network with colleagues across the country and discuss their respective clinical, academic and research interests as well as standards governing the practice. In a collegial atmosphere, the main goals of the conference are dissemination of current knowledge in forensic psychiatry and the related parent field of psychiatry, refresh skills in the fundamentals of the discipline and discuss advances in research relevant to the discipline.

CME TARGET AUDIENCE ▼

Psychiatrists working at the interface of law and psychiatry, and any physician and professional interested in furthering their knowledge in this area.

OBJECTIVES ▼ For specific learning objectives: see last 6 pages of this document

At the end of this conference, participants will be able to:
- appreciate the diversity of forensic psychiatry including criminal and civil matters;
- learn about complex clinical cases and recent case law;
- learn about the implementation and outcome of treatment programs for mentally disorders offenders;
- directly apply new knowledge into their own practice.

ORGANIZING COMMITTEE ▼

Brad Booth, MD
Alberto Choy, MD
Roland Jones, MD

PRE-CONFERENCE SEMINAR #1
(space is limited, register early!)

Sunday, April 19
9:00 am - 12:00 pm

An Update on the Treatment of Substance Use Disorders

Mohit Singh, MD, FRCPC, (Forensic Psychiatry), D.ABAM (Addiction Medicine)
Alberta Health Services, Addiction Medicine Edmonton Zone Lead
Clinical Assistant Professor, University of Alberta

Nickie Mathew, MD, ABPN (Addiction Psychiatry), FRCPC (Forensic Psychiatry), ABPM (Addiction Medicine)
Clinical Assistant Professor, University of British Columbia

Learning objectives:
At the end of the presentation, the participant will be able to

1. Identify and more successfully engage patients with substance use disorders according to clinical guidelines.

2. Develop an understanding of the most common substance use disorders.

3. Become more confident with evidence based pharmacological and psychosocial approaches for treatment substance use disorders.

Substance use disorders impact a significant proportion of the Canadian population. Clinicians report challenges in their competency treating substance use disorders. This preconference workshop provides an overview of the clinical updates in treating patients struggling with addiction. Gain the skills needed to identify dependent or at-risk patients across treatment settings. Participants will take away practical knowledge that can be applied to clinical practice, as well as the knowledge needed to become more proficient addiction treatment providers. The presenters are forensic and addiction medicine trained experts and clinicians with diverse practice experience. This course includes case discussion allowing participants to further understand and apply information provided.
PRE-CONFERENCE SEMINAR #2
(space is limited, register early!)

Sunday, April 19
1:00 pm - 4:00 pm

The Canadian Academy of Psychiatry and the Law Practice Resource for Prescribing in Corrections

Graham D. Glancy, M.B., Ch.B., F.R.C.Psych., F.R.C.P.(C)
Associate Professor, Director Division of Forensic Psychiatry, University of Toronto

Colin Cameron, MD, FRCPC (Psych)
Associate Professor of Psychiatry, University of Ottawa, National Senior Psychiatrist, Correctional Service Canada

Todd Tomita, MD, FRCPC
Clinical Associate Professor, UBC Division of Forensic Psychiatry
Regional Psychiatrist, Pacific, Correctional Service of Canada

Learning objectives
At the end of the presentation, the participant will be able to:

1. Understand the relationship of psychiatry and health care within corrections, and practical applications of person centered care and trauma informed care within correctional environments

2. Understand the general principles of prescribing in corrections and the mechanisms of medication administration in corrections

3. Understand the principles of prescribing to certain specific syndromes within corrections

In the last few years, there has been increasing attention to the role of the treatment of those with mental disorder within corrections. In response to this renewed interest, CAPL has instituted a committee on correctional psychiatry. The first task that this committee has undertaken is to adapt the AAPL correctional prescribing resource document for the Canadian context. In this presentation, we will describe how the administration of health care, including psychiatry, is situated within the correctional context. We will describe practical principles of person centered care and trauma informed care in the context of prescribing within a correctional setting. We will also discuss the general principles of prescribing in corrections including how medications are administered in different correctional environments. Additionally, we will discuss the challenges of medication misuse and diversion, a recurring central theme within correctional settings. We will then discuss in more detail guidelines for prescribing for specific common syndromes seen when working as a correctional psychiatrist.

There will be ample time for questions and discussion from participants.
Sunday, April 19 – PRE-CONFERENCE SEMINARS ($)

8:00 am - 9:00 am  On-site registration
9:00 am - 12:00 pm  **An Update on the Treatment of Substance Use Disorders**
   **Presenters**
   Mohit Singh, MD, FRCPC (Forensic Psychiatry), D.ABAM (Addiction Medicine)
   Nickie Mathew, MD, ABPN (Addiction Psychiatry), FRCPC (Forensic Psychiatry), ABPM (Addiction Medicine)
12:00 pm - 1:00 pm  Lunch for Pre-Conference Seminars participants AND on-site registration for PM session
1:00 pm - 4:00 pm  **The Canadian Academy of Psychiatry and the Law Practice Resource for Prescribing in Corrections**
   **Presenters:**
   Graham D. Glancy, M.B., Ch.B., F.R.C.Psych., F.R.C.P.(C)
   Colin Cameron, MD, FRCPC (Psych)
   Todd Tomita, MD, FRCPC

Sunday, April 19 – ANNUAL CONFERENCE

12:00 pm - 5:00 pm  On-site registration
4:50 pm - 4:45 pm  Welcoming Remarks and Fellowship Award Presentation
4:45 pm - 5:45 pm  Opening presentation
   1. Title TBC
   Dr. Georgina Zahirney
6:00 pm - 7:00 pm  Welcome Reception

Monday, April 20 – ANNUAL CONFERENCE

**CONCURRENT SESSIONS - SEE OPTIONS 1 and 2**

**OPTION 1:**
   **Moderator: TBC**
8:30 am - 9:00 am  2. Patient Informed Care in Forensic Psychiatry
   **Presenter: Diana Marginean**
9:00 am - 9:30 am  3. Eloignements from Forensic Psychiatry Programs: More Clues to Prediction
   **Presenter: Gary Chaimowitz**
9:30 am - 10:10 am  4. Panel Discussion: Absconding by Forensic Patients- Clinical, Institutional and Legal Responses
   **Presenters: Padraig Darby, Sandy Simpson, Michele Warner**
Monday, April 20 – ANNUAL CONFERENCE

OPTION 2:
Moderator: TBC

8:30 am - 9:00 am
5. Cannabis, Psychosis and Violence
Presenter: Nickie Mathew

9:00 am - 9:30 am
6. Cannabis, Psychosis and Considerations for NCRMD
Presenter: Rakesh Lamba

9:30 am - 10:10 am
7. Panel Discussion: Overview of Secure Treatment Programs for Youth in Canada: A Clinical and Legal Perspective
Presenters: Naveen Hassan, Marc Fadel

10:10 am - 10:40 am
Networking break / Connect Café / Poster Session

CONCURRENT SESSIONS - SEE OPTIONS 1 and 2

OPTION 1:
Moderator: TBC

10:40 am - 11:20 am
Presenters: Santoch Rai, Alberto Choy, Gabriela Corabian, Andrew Haag, Oghogho Manuwa

11:20 am - 11:50 am
9. Serious Mental Illness and Sexual Offending in Forensic Psychiatric Patients
Presenter: Austin A. Lam

OPTION 2:
Moderator: TBC

10:40 am - 11:10 am
10. Long-Acting Injectable Medication Use in a Forensic Psychiatry Program
Presenter: Luiça Paul Géa

11:10 am - 11:40 am
11. Development and Implementation of a Physician Wellness Initiative in a Forensic Institution
Presenters: Treena Wilkie, Sumeeta Chatterjee

11:40 am - 11:55 am
Presenter: Adedayo Alabi
Monday, April 20 – ANNUAL CONFERENCE

12:00 pm - 1:00 pm  
Lunch for residents  

BACK IN PLENARY SESSION

Moderator: TBC

1:00 pm - 1:30 pm  
13. Hostile Attribution Bias Measured in Forensic Psychiatry: Could this be a New Risk Factor to Consider?  
Presenter: Sébastien Prat

1:30 pm - 2:00 pm  
Presenter: Neil R. Hogan

2:00 pm - 2:30 pm  
15. Prediction of Violent Incidents among CAMH Inpatients Using Dynamic Appraisal of Situational Aggression (DASA)  
Presenter: Mario Moscovici

2:30 pm - 3:00 pm  
16. Inside the World of Incels: a Discussion of Formulation and Risk Assessment  
Presenter: Andrew Wang

3:00 pm - 3:30 pm  
Networking break / Connect Café / Poster Session

3:30 pm - 4:00 pm  
17. When the Trauma is Real but the Trigger is Not - Post Traumatic Stress Disorder Related to Psychosis  
Presenter: Victoria Roth

4:00 pm - 4:30 pm  
18. The Mental Health Needs of Women in Provincial Correctional Institutions  
Presenters: Ipsita Ray, Roland Jones

4:30 pm - 5:00 pm  
19. Absolute Discharges: Do the Review Boards Get it Right?  
Presenter: Casey Uphold

5:00 pm - 5:30 pm  
20. Conceptualising Clozapine as an Intervention for “Treatment Resistant” Criminogenic Needs  
Presenters: Santoch Rai, Oghogho Manuwa

6:00 pm - 6:30 pm  
Cocktail  
Dinner presentation

6:30 pm - 7:30 pm  
21. The Significance of the Gladue Principles for Psychiatrists Working With Indigenous People  
Presenter: Jonathan Rudin, LL.B., LL.M  
Program Director, Aboriginal Legal Services

7:30 pm  
Dinner
Tuesday, April 21 – ANNUAL CONFERENCE

8:00 am - 8:30 am  22. Cross-Canada Update: Recent Noteworthy Appeals of Review Board Dispositions  
Presenter: Barbara Walker-Renshaw

8:30 am - 9:00 am  23. The Impact of Bill C-14 on the Alberta Not Criminically Responsible Population  
Presenters: Andrew Haag, Katelyn Wonsiak

9:00 am - 9:30 am  24. What Constitutes a Restriction of Liberties and When to Report to the Review Board?ONCA Weighs in  
Presenters: Joel Watts, Michelle Mathias

9:30 am -10:00 am  Networking break / Connect Café / Poster Session

10:00 am - 10:30 am  25.Criminal Justice Involvement and Mental Disorders: a Population-Based Study  
Presenter: Hygiea Casiano

10:30 am - 11:00 am  26. Who is here? The Ontario Forensic Psychiatry System  
Presenter: Aamna Qureshi

11:00 am -11:30 am  27. Health Care Utilisation Prior to Index Forensic Hospitalisation: A Total Population Cohort of 135,000 Patients in Ontario  
Presenter: Roland Jones

11:30 am - 12:00 pm  28. The Forensic Mental Health Services in Québec: An Overview and a Comparison Study with Ontario  
Presenter: Mathieu Dufour

12:00 pm - 1:15 pm  Lunch presentation:  
29. Competence By Design (CBD) in Forensic Medical Education is Here … Now What?  
Presenters: Brad Booth, Sumeeta Chatterjee, Graham Glancy, Joel Watts

1:15 pm - 2:00 pm  Free time

2:00 pm - 2:40 pm  30. Debate: Do Psychological Tests add any Value to Forensic Psychiatry?  
Presenters: John Bradford, Gary Chaimowitz, Michelle Mathias, Joel Watts  
(Moderator: Yuri Alatishe)

2:40 pm - 2:55 pm  31. Immigration Law and Forensic Psychiatry  
Presenter: Zeynep Selaman

2:55 pm - 3:10 pm  32. Measurement-Based Care in Forensic Psychiatry  
Presenter: Maxym Choptiany

3:10 pm - 3:25 pm  33. Update on the Validity of the Booth Evaluation of Absconding Tool (BEAT)  
Presenter: Brad Booth

3:25 pm - 4:00 pm  Networking break / Connect Café / Poster Session

4:00 pm - 5:30 pm  AGM

6:00 pm - 8:00 pm  Pub: Elk & Oarsman ($) - 119 Banff Avenue
### Preliminary Program

**Wednesday, April 22 – ANNUAL CONFERENCE**

Learning Objectives - Annual Conference

1. Title TBC
   - TBC
   - TBC
   - TBC

2. Patient Informed Care in Forensic Psychiatry
   - Understand the benefits and challenges of patient-involved care in forensic psychiatry;
   - Understand forensic patient and staff perspectives toward patient-involved care;
   - Apply outcomes from these studies to their own practices.

3. Elopements from Forensic Psychiatry Programs: More Clues to Prediction
   - Understand the characteristics of elopements from forensic facilities and the implications for patients, forensic facilities and staff;
   - Learn the frequency of elopement and aggressive behaviour related parameters at an Ontario forensic psychiatry facility;
   - Acknowledge whether incidents of elopement are preceded by aggressive behavior, code whites or other risk factors.

4. Absconding by Forensic Patients- Clinical, Institutional and Legal Responses
   - Understand the literature on rates of absconding of forensic patients;
   - Recognize the complexities involved in responding to publicity about absconsions of forensic patients;
   - Understand the institutional and legal implications of absconsions.

5. Cannabis, Psychosis and Violence
   - Explain the relationship between cannabis and psychosis;
   - Understand the complexities of the relationship between cannabis and psychosis;
   - Understand the relationship between cannabis and violence.

6. Cannabis, Psychosis and Considerations for NCRMD
   - Understand R v. Bouchard-Lebrun;
   - Understand how cannabis induced psychosis fits within this paradigm;
   - Understand how cannabis induced psychosis does not fit within this paradigm.

7. Overview of Secure Treatment Programs for Youth in Canada- A Clinical and Legal Perspective
   - Understand the legal requirements for committing a child to a secure treatment program;
   - Identify which patients might benefit most from commitment to a secure treatment program;
   - Know the common legal issues with applications for secure treatment.

   - Describe the technology/instruments used for electronic monitoring of offenders;
   - Describe the arguments for and against the use of electronic monitoring in clinical populations;
   - Describe the feasibility of implementing electronic monitoring to promote the rehabilitation and recovery of NCR patients in a Canadian context.
Learning Objectives - Annual Conference

9. Serious Mental Illness and Sexual Offending in Forensic Psychiatric Patients
   • Describe the characteristics of forensic psychiatric patients with a sexual offending history as compared to those without;
   • Describe the patterns of age onset of illness and offending among forensic patients with a history of sexual offending, and as compared to those without;
   • Identify the motivational typologies of sexual offending in forensic psychiatric patients.

10. Long-Acting Injectable Medication Use in a Forensic Psychiatry Program
    • Learn about LAIs and their applicability in treatment non-compliance;
    • Understand the frequencies of LAIs and OPAs at a forensic psychiatry sample in Ontario;
    • Apply knowledge of the clinical trajectories of patients prescribed with LAIs and OPAs into their own work.

11. Development and Implementation of a Physician Wellness Initiative in a Forensic Institution
    • Define physician burnout and consequences;
    • Appreciate factors unique to forensic psychiatry that contribute to burnout;
    • Understand strategies to promote physician wellness and combat burnout.

    • Know the importance of Gender (female)-Specific Forensic Psychiatric Services
    • Know distinct characteristics of female within secure forensic services and who are found not criminally responsible on account of mental disorder within Canadian Criminal Code;
    • Know what Hummingbird Unit aim to achieve.

13. Hostile Attribution Bias Measured in Forensic Psychiatry: Could this be a New Risk Factor to Consider?
    • Understand the concept of hostile attribution bias;
    • Know the correlation between psychotic symptoms and hostile attribution bias;
    • Comment on how impulsivity influences risk through the concept of Theory of the Mind.

    • Identify empirically supported approaches to the measurement of changes in risk among forensic inpatients;
    • Describe and apply an alternative approach to Relevance ratings as part of Structured Professional Judgment (SPJ) tools;
    • Describe independent support for the predictive validity of updated/revised violence risk assessment tools (HCR-20V3 and VRAG-R).

15. Prediction of Violent Incidents among CAMH Inpatients Using Dynamic Appraisal of Situational Aggression (DASA)
    • Examine the utility of DASA as a tool to assess risk of inpatient violence;
    • Learn different approaches to the assessment of risk of violence in different inpatient settings (forensic and non-forensic);
    • Learn practical suggestions in using the DASA in routine clinical care.
Learning Objectives - Annual Conference

16. Inside the World of Incels: a Discussion of Formulation and Risk Assessment
   - Understand some of the key features and ideas of the incel subculture;
   - Consider potential formulations and development of incel ideas;
   - Reflect on issues of risk and threat assessment in the incel subgroup.

17. When the Trauma is Real but the Trigger is Not - Post Traumatic Stress Disorder Related to Psychosis
   - Understand the prevalence of PTSD related to psychotic phenomena;
   - Understand recommended management options for PTSD related to psychosis;
   - Improve awareness of the risk of PTSD in the context of distressing psychotic phenomena.

18. The Mental Health Needs of Women in Provincial Correctional Institutions
   - Identify specific treatment needs of mentally ill women in jail;
   - Understand the differences in their presentation suggests need for gender specific services;
   - Understand the need for access to psychological therapies.

19. Absolute Discharges: Do the Review Boards Get it Right?
   - Learn of correlates related to Review Boards giving absolute discharges;
   - Identify the rates and characteristics of reoffending after absolute discharges from the ORB system;
   - Understand the factors Review Boards consider when contemplating an absolute discharge.

20. Conceptualising Clozapine as an Intervention for “Treatment Resistant” Criminogenic Needs
   - Conceptualise utility of clozapine in the context of RNR model of forensic rehabilitation;
   - Describe potential utility of clozapine to ameliorate criminogenic needs in forensic patients;
   - Describe the merits of using clozapine for off-label indications in to promote the rehabilitation and recovery of high risk forensic patients.

21. The Significance of the Gladue Principles for Psychiatrists Working With Indigenous People
   - Understand the expectations created by Gladue, Ipeele, and other cases on the practice of forensic psychiatry;
   - Know where and how to find resources to help when working with Indigenous people;
   - Identify some of the emerging issues for Indigenous people in the justice system and psychiatry.

22. Cross-Canada Update: Recent Noteworthy Appeals of Review Board Dispositions
   - Understand the practical implications of recent appeal decisions on presenting evidence related to significant threat at Review Board hearings;
   - Understand the legal distinctions between detention orders and conditional discharges for the management of forensic outpatients;
   - Understand when a Review Board will likely order an independent assessment to break a treatment impasse and what appellate courts have said about how the assessment should proceed.
Learning Objectives - Annual Conference

23. The Impact of Bill C-14 on the Alberta Not Criminally Responsible Population
   - Critically evaluate the impact to the Not Criminally Responsible Reform Act on an NCR population;
   - Understand some statistically significant impacts on the NCR population;
   - Understand marco issues that impact daily practice with the NCR population.

24. What Constitutes a Restriction of Liberties and When to Report to the Review Board? ONCA Weighs in
   - Describe current reporting requirements of ROL to the Review Board;
   - Describe the ruling in Campbell and ONCA’s proposed method for assessing what constitutes an ROL;
   - Discuss the potential implications on forensic practice of this decision across the country given Campbell
     and other case law on this issue.

25. Criminal Justice Involvement and Mental Disorders: a Population-Based Study
   - Review the data that reflect the complex relationship between accusations of crime, victimization and mental
     disorders;
   - Understand that among all of those accused of any crime, there is a significantly higher likelihood that those
     with mental illness will also have experienced victimization;
   - Appreciate that the associations between victimization, criminality, substance misuse, and low
     socioeconomic status suggest a disadvantaged lifestyle in which a person with mental disorder faces many
     adversities;
   - Help to correct public misperceptions of a strong link between mental disorder and interpersonal violence by
     reviewing population level data.

26. Who is here? The Ontario Forensic Psychiatry System
   - Understand the profile of individuals within the Ontario Forensic Psychiatry System;
   - Identify the trajectories and correlates of release for Ontario Forensic patients;
   - Understand the risk management and risk assessment strategies used across forensic facilities in
     Ontario.

27. Health Care Utilisation Prior to Index Forensic Hospitalisation: A Total Population Cohort of 135,000 Patients in
    Ontario
   - Have an understanding of application and utility of large administrative data sets;
   - Have knowledge of patterns of health care use of forensic and non-forensic mental health patients;
   - Have knowledge of changing patterns of health care utilisation prior to index hospital admission.

28. The Forensic Mental Health Services in Québec: An Overview and a Comparison Study with Ontario
   - Describe the Forensic Mental Health Services in the Province of Québec;
   - Explain the differences of the Forensic Mental Health Services in Québec and in Ontario;
   - Evaluate how the differences in the Civil Mental Health System can impact the Forensic Mental Health
     Services.

29. Competence By Design (CBD) in Forensic Medical Education is Here … Now What?
   - Describe the principles and key educational components of the Competence By Design (CBD)
     medical education;
   - Identify CBD elements specific to Forensic Psychiatry, including revised the Objectives of Training,
     Competencies, and Entrustable Professional Activities (EPAs);
   - Understand how CBD, Competencies & EPAs will fit into the four phases of forensic psychiatry
     training.
Learning Objectives - Annual Conference

30. Do Psychological Tests add any Value to Forensic Psychiatry?
   • Better understand the relevance of psychological testing to forensic opinions;
   • Have an understanding of the benefits and pitfalls in relying on psychological tests;
   • Defend the use or absence of psychological testing in your reports.

31. Immigration Law and Forensic Psychiatry
   • Review basic concepts in Immigration and Refugee Law in Canada;
   • Understand the impact of migration status in Canada on the health and wellbeing of forensic psychiatric patients;
   • Discuss clinical cases of patients under the Ontario Review Board with insecure migration status.

32. Measurement-Based Care in Forensic Psychiatry
   • Define Measurement-Based Care (MBC);
   • Appreciate the importance of MBC;
   • Recognize the applicability of MBC in forensic settings.

33. Update on the Validity of the Booth Evaluation of Absconding Tool (BEAT)
   • Discuss risk assessment principles relevant to absconding;
   • Utilize literature on absconding in risk assessment;
   • Cite the data supporting the BEAT for assessing risk of absconding.

34. Capacity to Form Murderous Intent
   • Explain the difference between general intent and specific intent crimes;
   • Explain common elements in other capacity tests;
   • Explain one proposed test for assessing capacity to form the intent to commit murder.

35. The Path to Criminal Justice Involvement in First Episode Psychosis: Early Findings from a Clinical Comparison Study
   • Identify social and clinical issues related to offending and correctional-forensic pathways in FEP;
   • Gain insight into the lived experience of people who have followed these trajectories;
   • Learn about current research into characteristics that propel people with FEP down correctional-forensic pathways.

36. Training Corrections Officers to Better Meet the Mental Health Needs of Inmates
   • Identify the common learning needs of corrections officer in the area of mental health;
   • Summarize the evaluation results of an mental health education intervention for correctional officers;
   • Learn how to develop an effective education intervention for corrections officers to improve the mental health needs of inmates.

37. The Use of the PCL-R in Ontario Forensic Psychiatry Programs
   • Understand how often the PCL-R is used in Ontario Forensic Facilities, and correlates related to its use;
   • Understand the PCL-R profiles and scores of Ontario Forensic Psychiatry patients;
   • Identify the association between PCL-R scores and forensic psychiatry trajectories.
38. Imminent Risk Assessment Tools: What Does the Evidence Tell us?
   - Review currently available SPJ tools that assess imminent risk of violence;
   - Review the literature around the evidence of such tools in risk prediction and management;
   - Consider basic implementation strategies of such tools.

   - Describe the possible reasons for variation in NCR assessment opinions among experts;
