# (In-Person) 2022 CAPL ANNUAL CONFERENCE

April 3-6, 2022

Fairmont Banff Springs, Banff, AB

26<sup>th</sup>

Edition

Program

### **ANNUAL CONFERENCE:**

As a professional organization concerned with advancement of the science and practice of medicine in the specialty of forensic psychiatry, CAPL has established an annual conference devoted to promote standards of practice and further the continuing education of practicing forensic psychiatrists. The CAPL Annual Conference has now been a tradition since 1995. Held annually in the spring, this conference features a 4-day core scientific program and pre-conference seminars.

### **GOALS:**

The conference provides attendees with an excellent opportunity to meet virtually with colleagues across the country and discuss their respective clinical, academic and research interests as well as standards governing the practice. The main goals of the conference are dissemination of current knowledge in forensic psychiatry and the related parent field of psychiatry, refresh skills in the fundamentals of the discipline and discuss advances in research relevant to the discipline.

### **TARGET AUDIENCE:**

Psychiatrists working at the interface of law and psychiatry, and any physician and professional interested in furthering their knowledge in this area.

### **GENERAL OBJECTIVES: For specific learning objectives: see last 7 pages of this document**

At the end of this conference, participants will be able to:

- appreciate the diversity of forensic psychiatry including criminal and civil matters;
- discuss about complex clinical cases and recent case law;
- implement treatment programs for mentally disorders offenders;
- directly apply new knowledge into their own practice.

### **ORGANIZING COMMITTEE:**

- Brad Booth, MD
- Alberto Choy, MD
- Roland Jones, MD
- Phil Klassen, MD
- Victoria Roth, MD
  
- Chantal Goddard, Meeting planner  
Goddard Communications

# PRE-CONFERENCE SEMINARS (\$)

## PRE-CONFERENCE SEMINAR #1

(space is limited, register early!)

**Sunday, April 3**

**9:00-12:00**

### An Update on the Treatment of Substance Use Disorders

Mohit Singh, MD, FRCPC, (Forensic Psychiatry), D.ABAM (Addiction Medicine)  
Alberta Health Services, Addiction Medicine Edmonton Zone Lead  
Clinical Assistant Professor, University of Alberta

Nickie Mathew, MD, ABPN (Addiction Psychiatry), FRCPC (Forensic Psychiatry), ABPM (Addiction Medicine)  
Clinical Assistant Professor, University of British Columbia

#### **Learning Objectives:**

At the end of the presentation, the participant will be able to:

- Identify and more successfully engage patients with substance use disorders according to clinical guidelines.
- Develop an understanding of the most common substance use disorders.
- Become more confident with evidence based pharmacological and psychosocial approaches for treatment substance use disorders.

Substance use disorders impact a significant proportion of the Canadian population. Clinicians report challenges in their competency treating substance use disorders. This preconference workshop provides an overview of the clinical updates in treating patients struggling with addiction. Gain the skills needed to identify dependent or at-risk patients across treatment settings.

Participants will take away practical knowledge that can be applied to clinical practice, as well as the knowledge needed to become more proficient addiction treatment providers. The presenters are forensic and addiction medicine trained experts and clinicians with diverse practice experience. This course includes case discussion allowing participants to further understand and apply information provided.

## PRE-CONFERENCE SEMINAR #2

(space is limited, register early!)

**Sunday, April 3**  
**13:00-16:00**

### The Canadian Academy of Psychiatry and the Law Practice Resource for Prescribing in Corrections

Graham D. Glancy, M.B., Ch.B., F.R.C.Psych., F.R.C.P.(C)  
Associate Professor, Director Division of Forensic Psychiatry, University of Toronto

Colin Cameron, MD, FRCPC (Psych)  
Associate Professor of Psychiatry, University of Ottawa, National Senior Psychiatrist, Correctional Service Canada

Todd Tomita, MD, FRCPC  
Clinical Associate Professor, UBC Division of Forensic Psychiatry  
Regional Psychiatrist, Pacific, Correctional Service of Canada

#### **Learning Objectives (LOs):**

At the end of the presentation, the participant will be able to:

- Understand the relationship of psychiatry and health care within corrections, and practical applications of person centered care and trauma informed care within correctional environments
- Understand the general principles of prescribing in corrections and the mechanisms of medication administration in corrections
- Understand the principles of prescribing to certain specific syndromes within corrections

In the last few years, there has been increasing attention to the role of the treatment of those with mental disorder within corrections. In response to this renewed interest, CAPL has instituted a committee on correctional psychiatry. The first task that this committee has undertaken is to adapt the AAPL correctional prescribing resource document for the Canadian context. In this presentation, we will describe how the administration of health care, including psychiatry, is situated within the correctional context.

We will describe practical principles of person centered care and trauma informed care in the context of prescribing within a correctional setting. We will also discuss the general principles of prescribing in corrections including how medications are administered in different correctional environments. Additionally, we will discuss the challenges of medication misuse and diversion, a recurring central theme within correctional settings. We will then discuss in more detail guidelines for prescribing for specific common syndromes seen when working as a correctional psychiatrist.

There will be ample time for questions and discussion from participants.

# PROGRAM

## Sunday, April 3 – PRE-CONFERENCE SEMINARS (\$)

8:00-9:00	<b>Onsite registration</b>	<b><u>Riverview Lounge</u></b>
9:00-12:00	<b>An Update on the Treatment of Substance Use Disorders</b> <i>Presenters:</i> Mohit Singh, MD, FRCPC, (Forensic Psychiatry), D.ABAM (Addiction Medicine) Nickie Mathew, MD, ABPN (Addiction Psychiatry), FRCPC (Forensic Psychiatry), ABPM (Addiction Medicine)	<b><u>New Brunswick Room</u></b>
12:00-13:00	<b>Lunch for Pre-Conference Seminars participants</b>	
13:00-16:00	<b>The Canadian Academy of Psychiatry and the Law Practice Resource for Prescribing in Corrections</b> <i>Presenters:</i> Graham D. Glancy, M.B., Ch.B., F.R.C.Psych., F.R.C.P.(C) Colin Cameron, MD, FRCPC (Psych) Todd Tomita, MD, FRCPC	<b><u>New Brunswick Room</u></b>

## Sunday, April 3 – ANNUAL CONFERENCE

12:00-17:00	<b>Onsite registration</b>	<b><u>Riverview Lounge</u></b>
16:30-16:45	<b>Welcoming Remarks and Fellowship Awards</b>	<b><u>Alberta Room</u></b>
16:45-18:00	<b>Opening Presentation</b> <b>1. Telepsychiatry: 60 Years and COVID-19</b> <i>Presenter:</i> Dr. Douglas Urness, CPA President	<b><u>Alberta Room</u></b>
18:30-19:30	<b>Welcome Reception</b>	<b><u>Riverview Lounge</u></b>

# Monday, April 4 – ANNUAL CONFERENCE

## CONCURRENT SESSIONS – SEE OPTIONS 1 AND 2

### OPTION 1

<b>9:00-10:40</b>	<b>Moderator: Victoria Roth</b>	<b><u>Alberta Room</u></b>
9:00-9:20 (15 m. + 5 m. Q&A)	<b>2. Pilot Study: Patient Characteristics and Initial Outcome Measures at Ontario's Provincial Specialized Female Forensic Secure Unit</b> <i>Presenter: Adedayo Alabi</i>	
9:20-9:40 (15 m. + 5 m. Q&A)	<b>3. Fitness Training our Experience in Southern Alberta</b> <i>Presenter: Oluyemisi Ajeh</i>	
9:40-10:00 (15 m. + 5 m. Q&A)	<b>4. Forensic Dual Diagnosis Services: Needs Assessment, Literature and Best Practices</b> <i>Presenter: Neil de Laplante</i>	
10:00-10:40 (30 m. + 10 m. Q&A)	<b>5. The Defense of Automatism: Balancing Psychiatry, Public Policy, and the Rights of the Accused</b> <i>Presenter: Laeticia Eid</i>	
10:40-11:10	<b>Networking break – Connect Café (employment prospects at different centres)</b>	<b><u>Riverview Lounge</u></b>

### OPTION 2

<b>9:00-10:40</b>	<b>Moderator: Alberto Choy</b>	<b><u>New Brunswick Room</u></b>
9:00-9:20 (15 m. + 5 m. Q&A)	<b>6. Fellowship Award 2020 - Immigration Law and Forensic Psychiatry</b> <i>Presenter: Zeynep Selaman</i>	
9:20-9:40 (15 m. + 5 m. Q&A)	<b>7. Fellowship Award 2021 - Workplace Violence Against Healthcare Workers: Its Correlates and Impact on Career Satisfaction</b> <i>Presenter: Yu Chen Yue</i>	
9:40-10:00 (15 m. + 5 m. Q&A)	<b>8. Fellowship Award 2022 - Fitness to Stand Trial and Dementia: Considering Changes to Assessment to Meet Demographic Need</b> <i>Presenter: Shauna Sawich</i>	
10:00-10:20 (15 m. + 5 m. Q&A)	<b>9. Integration of Culture into Forensic Therapeutics: a Call to Action</b> <i>Presenter: Bushra Khan</i>	
10:20-10:40 (15 m. + 5 m. Q&A)	<b>10. Detecting Contraband Substances with a TeknoScan on Forensic Psychiatry Units During the COVID-19 Pandemic</b> <i>Presenters: Aaron Wu, Andrew T. Olagunju</i>	
10:40-11:10	<b>Networking break + Connect Café (employment prospects at different centres)</b>	<b><u>Riverview Lounge</u></b>

# Monday, April 4 – ANNUAL CONFERENCE

## MAIN SESSION

<b>11:10-12:30</b>	<b>Moderator: Phil Klassen</b>	<b>Alberta Room</b>
11:10-11:30 (15 m. + 5 m. Q&A)	<b>11. Violence vs. Earthquakes: Comparing Risk Assessment of Different Rare Events</b> <i>Presenter: Neil de Laplante</i>	
11:30-11:50 (15 m. + 5 m. Q&A)	<b>12. More is Better: Potential Ways of Overcoming the Various Barriers with Clozapine Administration in Forensic Mental Health</b> <i>Presenter: Xiang (Sean) Li</i>	
11:50-12:10 (15 m. + 5 m. Q&A)	<b>13. Moving Data to the Cloud: The New eHARM</b> <i>Presenters: Gary Chaimowitz, Mini Mamak</i>	
12:10-12:30 (15 m. + 5 m. Q&A)	<b>14. Mental Health Interventions in Highly Restrictive Settings: A Scoping Review</b> <i>Presenter: Cory Gerritsen</i>	
12:30-13:30	<b>Lunch for Residents</b>	<b>Ivor Petrak Room</b>
<b>13:30-15:10</b>	<b>Moderator: Brad Booth</b>	<b>Alberta Room</b>
13:30-13:50 (15 m. + 5 m. Q&A)	<b>15. Linking Passes and Privileges to Therapeutic Engagement for Review Board Patients</b> <i>Presenter: Pdraig Darby</i>	
13:50-14:10 (15 m. + 5 m. Q&A)	<b>16. Psychological Harm-Intractable Offenders and Significant Risk</b> <i>Presenter: Julian Gojer</i>	
14:10-14:30 (15 m. + 5 m. Q&A)	<b>17. Staff Perceptions of Interdisciplinary Violence Risk Assessment: a Thematic Analysis</b> <i>Presenter: Jason Quinn</i>	
14:30-15:10 (30 m. + 10 m. Q&A)	<b>18. Patient Oriented Research in a Secure Forensic Mental Health Setting: Lessons, Challenges and Opportunities</b> <i>Presenters: Achal Mishra, Soyeon Kim, Abbie Devnick, Shannon Duplessy</i>	
15:10-15:30	<b>Networking break + Connect Café (employment prospects at different centres)</b>	<b>Riverview Lounge</b>

## Monday, April 4 – ANNUAL CONFERENCE

15:30-16:50	<b>Moderator: Victoria Roth</b>	<b>Alberta Room</b>
15:30-15:50 (15 m. + 5 m. Q&A)	<b>19. Acquired Brain Injury in Forensic Patients in a High Secure Setting</b> <i>Presenter: Nathan J. Kolla</i>	
15:50-16:10 (15 m. + 5 m. Q&A)	<b>20. The Mental Health of Pre-Trial Inmates: What Happens to Illness Severity During Incarceration?</b> <i>Presenter: Roland M. Jones</i>	
16:10-16:30 (15 m. + 5 m. Q&A)	<b>21. Perception of Bias in Independent Medical Examinations</b> <i>Presenter: Jeffrey Waldman</i>	
16:30-16:50 (15 m. + 5 m. Q&A)	<b>22. A Conceptual Framework for the Management of a COVID-19 Outbreak on a Secure Forensic Inpatient Unit</b> <i>Presenter: Treena Wilkie</i>	
18:00-18:30	<b>Cocktail</b>	<b>Riverview Lounge</b>
18:30-19:30 (45 m. + 15 m. Q&A)	<b>Moderator: Phil Klassen</b> <b>23. The Significance of the Gladue Principles for Psychiatrists Working With Indigenous People</b> <i>Presenter:</i> Jonathan Rudin, LL.B., LL.M Program Director, Aboriginal Legal Services	<b>New Brunswick Room</b>
19:30	<b>Dinner</b>	<b>New Brunswick Room</b>

## Tuesday, April 5 – ANNUAL CONFERENCE

<b>9:00-10:20</b>	<b>Moderator: Phil Klassen</b>	<b>Alberta Room</b>
9:00-9:20 (15 m. + 5 m. Q&A)	<b>24. The Slips and Cracks</b> <i>Presenter: Oluyemisi Ajeh</i>	
9:20-9:40 (15 m. + 5 m. Q&A)	<b>25. Looking at Forensic Mental Health Through the Lens of Money</b> <i>Presenter: Sébastien Prat</i>	
9:40-10:20 (30 m. + 10 m. Q&A)	<b>26. The Forensic Psychiatrist as Advocate: Advocating for Change in Federal Legislation to Protect LGBTQ2S Peoples</b> <i>Presenters: Mitesh Patel, Jessyca Greenwood, Samuel Wier</i>	
10:20-10:40	<b>Networking Break + Connect Café</b> <b>(employment prospects at different centres)</b>	<b>Riverview Lounge</b>

## Tuesday, April 5 – ANNUAL CONFERENCE

<b>10:40-12:00</b>	<b>Moderator: Brad Booth</b>	<b>Alberta Room</b>
10:40-11:00 (15 m. + 5 m. Q&A)	<b>27. Legal Framework of Criminal Responsibility in France and its Implication for Psychiatric Patients</b> <i>Presenter: Estebanine Moulia-Pelat</i>	
11:00-11:40 (30 m. + 10 m. Q&A)	<b>28. Managing the Clinical Care and Supervision of Forensic Patients across International Borders</b> <i>Presenters: Amina Ali, Leisha Senko, Laeticia Eid</i>	
11:40-12:00 (15 m. + 5 m. Q&A)	<b>29. Effectiveness of Police Crisis Intervention Teams in the Management of Psychologically Distressed Individuals</b> <i>Presenter: Raheel Syed</i>	
12:00-13:15 Buffet opens at 12:00 Presentation starts at 12:15 (45 m. + 15 m. Q&A)	<b>Lunch Presentation – Moderator: Brad Booth</b> <b>30. The Process and Evolution of the Development of The Canadian Guidelines for Forensic Psychiatry Assessment and Report Writing</b> <i>Presenters: Lisa Ramshaw, Treena Wilkie, Sumeeta Chatterjee, Mathieu Dufour, Todd Tomita, Graham Glancy</i>	<b>Alberta Room</b>
13:15-14:00	<b>Poster Session</b> a. Not Criminally Responsible on Account of a Mental Disorder: Evolutions after Alek Minassian (Brian Robertson) b. A Longitudinal Review of a Case Series of S. 752.1 Assessments (Philip Klassen) c. The Experience of Ethnic Minority not criminally Responsible Patients. (Zeynep Selaman)	<b>Riverview Lounge</b>
<b>14:00-15:20</b>	<b>Moderator: Alberto Choy</b>	<b>Alberta Room</b>
14:00-14:20 (15 m. + 5 m. Q&A)	<b>31. Physician Burnout and Forensic Psychiatry</b> <i>Presenters: Treena Wilkie, Sumeeta Chatterjee</i>	
14:20-14:40 (15 m. + 5 m. Q&A)	<b>32. Fostering Forensic Recovery by Applying Family Interventions to Facilitate Restorative Justice in the Not Criminally Responsible on Account of Mental Disorder (NCR-MD): Findings from the Southern Alberta Forensic Psychiatry Centre</b> <i>Presenter: Sergio Santana</i>	
14:40-15:00 (15 m. + 5 m. Q&A)	<b>33. The Concept of Detached Concern in Forensic Psychiatry</b> <i>Presenter: Graham Glancy</i>	
15:00-15:20 (15 m. + 5 m. Q&A)	<b>34. Adverse Childhood Experiences – Implications for Forensic Psychiatry</b> <i>Presenter: Michael Colleton</i>	
15:20-16:00	<b>Poster Session + Connect Café (employment prospects at different centres)</b> a. Not Criminally Responsible on Account of a Mental Disorder: Evolutions after Alek Minassian (Brian Robertson) b. A Longitudinal Review of a Case Series of S. 752.1 Assessments (Philip Klassen) c. The Experience of Ethnic Minority not criminally Responsible Patients. (Zeynep Selaman)	<b>Riverview Lounge</b>
16:00-17:30	<b>AGM (for CAPL members only)</b>	<b>Alberta Room</b>
18:00-19:30	<b>Social Event – Rose &amp; Crown</b>	<b>202 Banff Ave</b>

## Wednesday, April 6 – ANNUAL CONFERENCE

No official break, coffee available in the meeting room all morning

<b>9:00-11:40</b>	<b>Moderator: Roland Jones</b>	<b><u>Alberta Room</u></b>
9:00-9:20 (15 m. + 5 m. Q&A)	<b>35. Patient and Provider Perspectives Regarding the Implementation of the Cultural Formulation Interview in a Forensic Mental Health Setting</b> <i>Presenter: Treena Wilkie</i>	
9:20-9:40 (15 m. + 5 m. Q&A)	<b>36. Participation as an Expert in Cases Involving the Production of Mental Health Records</b> <i>Presenters: Graham Glancy, Mitesh Patel</i>	
9:40-10:00 (15 m. + 5 m. Q&A)	<b>37. The Sociodemographics, Criminal Features, and the Psychiatric Diagnosis of Male Forensic Patients in the City of Abu Dhabi in the United Arab Emirates</b> <i>Presenter: Sumaya AlMarzooqi</i>	
10:00-10:20 (15 m. + 5 m. Q&A)	<b>38. The Mask of Sanity Disability</b> <i>Presenters: Brad Booth, Victoria Roth</i>	
10:20-10:40 (15 m. + 5 m. Q&A)	<b>39. Sexual Sadism Disorder v.s. Coercive Paraphilia</b> <i>Presenter: Emma Zhang</i>	
10:40-11:00 (15 m. + 5 m. Q&A)	<b>40. Evaluation of a New Forensic Model of Care: Construct and Predictive Validity of DUNDRUM-3 Programme Completion and DUNDRUM-4 Recovery Scales</b> <i>Presenters: Austin A. Lam, Alexander I. F. Simpson</i>	
11:00-11:40 (30 m. + 10 m. Q&A)	<b>41. The Toronto North West Justice Centre: New Approaches for Marginalized and Racialized Youth Justice</b> <i>Presenters: Mitesh Patel, Jessyca Greenwood, Sabrina Agnihotri</i>	
11:40-11:45	<b>Closing Remarks</b>	

## ACCOMMODATION

All reservations will be made on-line [HERE](#) or by phone to the Reservations Department at 403-762-6866 or at the Global Reservations Centre at 1-800-441-1414. We recommend that callers identify themselves as being with the group for ease of booking "CAPL Annual conference".

The base rate is 259\$ for a Fairmont Room + service charge.

The number of rooms is limited and reservations must be made, upon availability, [before March 2nd, 2022](#).

A limited number of alternate room types may be available during the program dates. Confirmation of rooms will be on an availability and request basis.

## LEARNING OBJECTIVES

1. **Telepsychiatry: 60 Years and COVID-19**
  - a. Appreciate the factors affecting the growth of telehealth.
  - b. Describe the impact of COVID on telehealth utilization.
  - c. Consider future directions for delivery of care using this modality.
  
2. **Pilot Study: Patient Characteristics and Initial Outcome Measures at Ontario's Provincial Specialized Female Forensic Secure Unit**
  - a. Describe the demographic profile for the initial patients on Hummingbird Lodge.
  - b. Describe the clinical characteristics of this patient group.
  - c. see the trend of initial outcome measures after three months of treatment.
  
3. **Fitness Training our Experience in Southern Alberta**
  - a. Describe the evolution of fitness to stand trial legislation in Canada.
  - b. Describe the practice of fitness training.
  - c. Understand the complexity of fitness assessments training in special populations.
  
4. **Forensic Dual Diagnosis Services: Needs Assessment, Literature and Best Practices**
  - a. Discuss the literature around the specialized needs and services for intellectually disabled offenders.
  - b. Consider the relevant factors when determining whether and how to set up a subspecialty service for this population.
  - c. Apply this literature to their own local service design.
  
5. **The Defense of Automatism: Balancing Psychiatry, Public Policy, and the Rights of the Accused**
  - a. Review the defense of automatism and the different causes in law both “internal” and “external” to the subject (i.e. sleepwalking, psychological blow, intoxication).
  - b. Review the distinction between insane and non-insane automatism, including the legal consequences of the distinction.
  - c. Review the Ontario Court of Appeal’s recent decisions regarding the availability of the defense of automatism for violent crimes where the automatism is caused by self-induced intoxication (including the impact of this decision on future cases).

- 6. Fellowship Award 2020 - Immigration Law and Forensic Psychiatry**
  - a. Review basic concepts in Immigration and Refugee Law in Canada
  - b. Understand the impact of migration status in Canada on the health and wellbeing of forensic psychiatric patients
  - c. Discuss clinical cases of patients under the Ontario Review Board with insecure migration status.
  
- 7. Fellowship Award 2021 - Workplace Violence Against Healthcare Workers: Its Correlates and Impact on Career Satisfaction**
  - a. Identify the risk factors related to workplace violence (WPV) against healthcare workers.
  - b. Appreciate the negative impact of WPV on the healthcare system.
  - c. Understand the need for future studies on perpetrator characteristics.
  
- 8. Fellowship Award 2022 - Fitness to Stand Trial and Dementia: Considering Changes to Assessment to Meet Demographic Need**
  - a. Identify the different reasons for an individual to be found unfit to stand trial.
  - b. Discuss the impact of an increasing prevalence of individuals diagnosed with Major Neurocognitive Disorder on fitness assessments.
  - c. Consider potential changes to fitness assessments in the context of a changing population.
  
- 9. Inegration of Culture into Forensic Therapeutics: a Call to Action**
  - a. Understand how culture is currently integrated into forensic practice through both clinical work and tools.
  - b. recognize how outcomes are currently framed within forensic psychiatry and the importance for aiming for equity of outcomes by ethnicity.
  - c. appreciate the role of the measurement-based care framework and the tools that can be used to evaluate cultural safety in forensic services.
  
- 10. Detecting Contraband Substances with a TeknoScan on Forensic Psychiatry Units During the COVID-19 Pandemic**
  - a. Review the connection between substance use and clinical and risk outcomes.
  - b. Provide an overview on the use of TeKnoScan machine in detecting trace amount of substances.
  - c. Describe the types and trends of detected substances, and discuss the role of technology in the identification and management of substance use problems in forensic population.
  
- 11. Violence vs. Earthquakes: Comparing Risk Assessment of Different Rare Events**
  - a. Discuss complex systems, power law distributions of rare events and their relevance to violence risk assessment.
  - b. Understand the statistical origins of the natural tendency of risk assessors in a variety of disciplines to "overcall" risk.
  - c. Explain the risks of over-precision in individual event prediction and make the case for risk assessments based on overall state scores.

- 12. More is Better: Potential Ways of Overcoming the Various Barriers with Clozapine Administration in Forensic Mental Health**
  - a. Understand the various barriers to implementing clozapine therapy in clinical forensic settings.
  - b. Identify novel and emerging strategies to overcome existing issues with clozapine therapy.
  - c. Appreciate the various psychosocial, legal, and ethical ramifications if the proposed novel strategies become more mainstream.
  
- 13. Moving Data to the Cloud: The New eHARM**
  - a. familiar with the new cloud-based eHARM tool.
  - b. have insight into the benefits and limitations of a cloud-based violence risk assessment tool.
  - c. provided information on the implementation of a violence risk assessment tool into clinical practice.
  
- 14. Mental Health Interventions in Highly Restrictive Settings: A Scoping Review**
  - a. Understand the scope of the literature on interventions for SMI populations in segregation or seclusion.
  - b. Articulate shortcomings and gaps in existing research and practice.
  - c. Provide recommendations for best practices and future research.
  
- 15. Linking Passes and Privileges to Therapeutic Engagement for Review Board Patients**
  - a. Understand the dual purpose of passes for NCR patients.
  - b. Understand the rationale for formalising decision making for passes and privileges.
  - c. Learn how therapeutic engagement can be linked to increases in passes and privileges.
  
- 16. Psychological Harm-Intractable Offenders and Significant Risk**
  - a. Appreciating the seriousness of psychological harm.
  - b. Why serious psychological harm that is intractable can lead to a dangerous offender finding.
  - c. When a major mental illness leads to psychological harm, management is possible under the Review Board System.
  
- 17. Staff Perceptions of Interdisciplinary Violence Risk Assessment: a Thematic Analysis**
  - a. Review the published literature on implementing violence risk assessment tools in a clinical context.
  - b. Describe staff perceptions of the role of the multidisciplinary team in violence risk assessment at a Canadian forensic hospital.
  - c. Describe facilitators and barriers to implementing interdisciplinary violence risk procedures.

**18. Patient Oriented Research in a Secure Forensic Mental Health Setting: Lessons, Challenges and Opportunities**

- a. Describe the context and rationale for conducting Patient Oriented Research (POR) to explore the experience of patients in a forensic or any other mental health setting.
- b. Appreciate the importance and value of patient oriented research.
- c. Analyze lessons learned and barriers of carrying out POR in a forensic mental health context/setting.

**19. Acquired Brain Injury in Forensic Patients in a High Secure Setting**

- a. Understand the prevalence of acquired brain injuries in a high secure forensic psychiatric population.
- b. Discuss the relationships between acquired brain injuries and adverse childhood events.
- c. Identify sequelae of acquired brain injuries in forensic psychiatric patients.

**20. The Mental Health of Pre-Trial Inmates: What Happens to Illness Severity During Incarceration?**

- a. Have knowledge of current literature on longitudinal course of symptoms of mental illness among prisoners.
- b. Have knowledge about clinical and demographic factors that may be associated with different outcomes.
- c. Know about tools for measuring illness severity in correctional centre settings.

**21. Perception of Bias in Independent Medical Examinations**

- a. understand perception of bias in independent medical examinations.
- b. have a better understanding of the impact of providing reports that negatively impact the contractors financial interest on further requests for reports.
- c. describe ethical ways to limit the risk of bias.

**22. A Conceptual Framework for the Management of a COVID-19 Outbreak on a Secure Forensic Inpatient Unit**

- a. Identify interventions to effectively respond to, and manage, a COVID-19 outbreak in a secure forensic mental health setting.
- b. Articulate different patient coping styles and responses to droplet and contact precautions.
- c. Deliniate which interventions are helpful for which group of patients based on their coping style.

**23. The Significance of the Gladue Principles for Psychiatrists Working With Indigenous People**

- a. Understand the expectations created by Gladue, Ipeelee and other cases on the practice of forensic psychiatry
- b. Know where and how to find resources to help when working with Indigenous people
- c. Identify some of the emerging issues for Indigenous people in the justice system and psychiatry

**24. The Slips and Cracks**

- a. Appreciate some of the complexities encountered by forensic services in the management of special forensic populations.
- b. Have an increased awareness of some of the particular problems that special populations may face.
- c. Understand the defense of diminished responsibility in Canada.
- d. Know the history and of 'The battered woman syndrome "in Canada.

**25. Looking at Forensic Mental Health Through the Lens of Money**

- a. Inform the audience of the forensic mental health areas that have had an economical evaluation.
- b. Provide the rationale as to why it is important to look into economical evaluation in the forensic context.
- c. Suggest some future directions of research to improve clinical and cost of the forensic programs.

**26. The Forensic Psychiatrist as Advocate: Advocating for Change in Federal Legislation to Protect LGBTQ2S Peoples**

- a. Appreciate the manner in which advocacy extends from individual to population in forensic psychiatry.
- b. Gain insight in the legal history of LGBT rights in Canada.
- c. Appreciate the role of forensic psychiatry in medical school advocacy training.

**27. Legal Framework of Criminal Responsibility in France and its Implication for Psychiatric Patients**

- a. Learning about the legal framework in France.
- b. Identifying criteria associated with length of stay in forensic.
- c. Identifying past psychosocial history of offenders and how this impact forensic decisions.

**28. Managing the Clinical Care and Supervision of Forensic Patients across International Borders**

- a. Review the relevant clinical considerations for a transfer of a patient under a review board to another country.
- b. Review the relevant legal considerations for a transfer of a patient under a review board to another country.

- c. Review the relevant resources and cross-organizational partnerships required to implement the transfer of a patient under a review board to another country.

**29. Effectiveness of Police Crisis Intervention Teams in the Management of Psychologically Distressed Individuals**

- a. Understand the different types of police crisis intervention teams.
- b. Review the effectiveness of the crisis intervention teams.
- c. Review the ethical challenges of these teams and potentially areas for growth.

**30. The Process and Evolution of the Development of The Canadian Guidelines for Forensic Psychiatry Assessment and Report Writing**

- a. A review of the process and collaborate experience of developing Canadian Guidelines.
- b. An overview of the ten Canadian Guidelines for Forensic Assessment and Report Writing: the general principles and the nine specific guidelines for each of the main areas of the field.
- c. An overview of implementation of the Guidelines to enhance standards in the field, by providing resources for training, practice, and self-assessment.

**31. Physician Burnout and Forensic Psychiatry**

- a. Identify the contributors to, and consequences of, physician burnout.
- b. Consider the impact of individual and organizational interventions that are aimed at addressing burnout and bolstering physician wellbeing.
- c. Apply these concepts to the field of forensic psychiatry, with an aim to begin to identify discipline-specific variables that may increase or mitigate the risk of physician burnout.

**32. Fostering Forensic Recovery by Applying Family Interventions to Facilitate Restorative Justice in the Not Criminally Responsible on Account of Mental Disorder (NCR-MD): Findings from the Southern Alberta Forensic Psychiatry Centre**

- a. Explain how families influence the recovery of forensic patients.
- b. Understand the potential benefits of family based treatments in the process of restorative justice.
- c. Discuss the interconnectedness of family based treatments, recovery and Restorative Justice.

**33. The Concept of Detached Concern in Forensic Psychiatry**

- a. Understand the development of ethics in forensic psychiatry.
- b. Understand the use and abuse of empathy in forensic assessments.
- c. Understand the concept of detached concern and its role in forensic psychiatry.

- 34. Adverse Childhood Experiences – Implications for Forensic Psychiatry**
  - a. Describe the impact of ACEs on brain development.
  - b. Recognize the mental health outcomes of ACEs and how they differ from DSM-5 diagnostic criteria.
  - c. Consider the relationship between ACEs and forensic outcomes.
  
- 35. Patient and Provider Perspectives Regarding the Implementation of the Cultural Formulation Interview in a Forensic Mental Health Setting**
  - a. Consider ways of improving cultural responsiveness in assessment and treatment planning.
  - b. Identify barriers and facilitators in implementing the Cultural Formulation Interview (CFI) in a forensic model of care.
  - c. Consider methods of communication and engagement with patients, families and treatment teams when discussing cultural factors in care.
  
- 36. Participation as an Expert in Cases Involving the Production of Mental Health Records**
  - a. Appreciate the two step process to release of records.
  - b. Gain an understanding of the role of a forensic psychiatrist in an application for the production of records.
  - c. Gain insight in the complexities involved in requests involving a child complainant.
  
- 37. The Sociodemographics, Criminal Features, and the Psychiatric Diagnosis of Male Forensic Patients in the City of Abu Dhabi in the United Arab Emirates**
  - a. Describe the legal system in United Arab Emirates (UAE).
  - b. Describe the characteristics of the forensic population in UAE.
  - c. Compare these characteristics with previously published data from other countries.
  
- 38. The Mask of Sanity Disability**
  - a. Describe relevant principles in evaluation of possible psychiatric disability related to COVID requirements, including differentiating stress from disability, the need for objectivity, essential tasks.
  - b. Understand the possible need for workplace accommodation regarding COVID requirements considering undue hardship.
  - c. Manage counter-transference issues when faced with these potentially “difficult” evaluatees.

**39. Sexual Sadism Disorder v.s. Coercive Paraphilia**

- a. Understand the importance and implications of diagnosing SS and CP+.
- b. Compare and contrast the definitions and methods/tools used to diagnose SS and CP+.
- c. Recognize the limitations of the current tools and definitions used to diagnose S.

**40. Evaluation of a New Forensic Model of Care: Construct and Predictive Validity of DUNDRUM-3 Programme Completion and DUNDRUM-4 Recovery Scales**

- a. Describe the relationship between DUNDRUM-3 and -4 ratings and patient movement between security levels.
- b. Describe the concordance between patient- and clinician-rated scores on the DUNDRUM-3 and -4, and the predictive role of concordance for movement between security levels.
- c. Identify patient characteristics and length of stay associated with the degree of concordance between patient- and clinician-rated DUNDRUM scores.

**41. The Toronto North West Justice Centre: New Approaches for Marginalized and Racialized Youth Justice**

- a. Gain further understanding of the role of a Justice Centre.
- b. Discuss the manner in which social determinants of health can be addressed through novel approaches in justice.
- a. Review mental health challenges and interventions associated with youth accessing services through the NWJC.
