2024 CAPL ANNUAL CONFERENCE

April 14-17, 2024

28th

Edition

The Paradox Hotel Vancouver
1161 W. Georgia Street
Vancouver, BC

ANNUAL CONFERENCE:

As a professional organization concerned with advancement of the science and practice of medicine in the specialty of forensic psychiatry, CAPL has established an annual conference devoted to promote standards of practice and further the continuing education of practicing forensic psychiatrists. Held annually in the spring, this conference features a 4-day core scientific program and pre-conference seminars.

GOALS:

The conference provides attendees with an excellent opportunity to meet virtually with colleagues across the country and discuss their respective clinical, academic and research interests as well as standards governing the practice. The main goals of the conference are dissemination of current knowledge in forensic psychiatry and the related parent field of psychiatry, refresh skills in the fundamentals of the discipline and discuss advances in research relevant to the discipline.

TARGET AUDIENCE:

Psychiatrists working at the interface of law and psychiatry, and any physician and professional interested in furthering their knowledge in this area.

GENERAL OBJECTIVES: (for specific learning objectives, please see pages 16-23)

At the end of this conference, participants will be able to:

- appreciate the diversity of forensic psychiatry including criminal and civil matters;
- discuss about complex clinical cases and recent case law;
- implement treatment programs for mentally disorders offenders;
- directly apply new knowledge into their own practice.

ACCREDITATION:

“This event is an accredited group learning activity (section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and approved by the Canadian Psychiatric Association (CPA). You may claim a maximum of 24.5 hours.”

“The specific opinions and content of this event are not necessarily those of the CPA, and are the responsibility of the organizer(s) alone.”

ORGANIZING COMMITTEE:

- Julie Bérubé-Fortin, MD
- Brad Booth, MD
- Alberto Choy, MD
- Padraig Darby, MD
- Roland Jones, MD
- Priya Khalsa, Medical student
- Phil Klassen, MD
- Rakesh Lamba, MD
- Mario Moscovici, MD
- Victoria Roth, MD
- Chantal Goddard, Meeting Organ
Goddard Communications

PRE-CONFERENCE SEMINARS (\$)

PRE-CONFERENCE SEMINAR #1

(space is limited, register early!)

Sunday, April 14 - 9:00-12:00

Boot Camp on Forensic Clinical Sexology and New Thinking on Risk Assessment

Brad D. Booth, MD, FRCPC

Head, Division of Forensic Psychiatry, UOttawa
Associate professor, UOttawa
Vice-Chair, Forensic Psychiatry Subspecialty Committee, RCPSC

Alberto Choy, MD, FRCPC

Sexual Behaviours Program
Forensic Assessment and Community Services, Alberta Health Services
Associate Teaching Professor, University of Alberta

Philip Klassen, MD, FRCPC

Vice-President Medical Affairs and Research
Ontario Shores Centre for Mental Health Sciences
Assistant Professor, University of Toronto

Patrick Lussier, PhD

Professor, School of Social Work and Criminology, *Université Laval*
Researcher, *Centre International de Criminologie Comparée (CICC)*
Researcher, *Centre de recherche universitaire sur les jeunes et les familles (CRUJeF)*

Learning Objectives:

At the end of the presentation, the participant will be able to:

1. Define and distinguish paraphilias from paraphilic disorders;
2. Describe key elements of a sexological history and psychophysiological testing methods that may be utilized in assessment;
3. Understand what we know about the risk of sexual recidivism and its evolution over time;
4. Understand the risk management strategies used and their impact on risk;
5. Develop an international perspective on risk, risk management of sexual recidivism.

Description:

Forensic clinical sexology is a core subspecialty within forensic psychiatry, as sexual offenders are a part of all forensic mental health services. This pre-conference seminar aims to provide a practical overview on the assessment and treatment of sexual offenders. The PCS features Dr. Patrick Lussier and his voluminous research on sex offender recidivism over time, which raises important questions about use of sex offender recidivism instruments. In light of this research, forensic psychiatrists may need to re-examine risk communication in sex offender assessment.

Bio – Patrick Lussier, PhD

Patrick Lussier is Professor at the School of Social Work and Criminology at Université Laval, in Quebec City, Canada. Dr. Lussier was previously a Professor at the School of Criminology at Simon Fraser University. He has been involved in research for over 20 years and has more than 170 publications on topics such as criminological theory of crime, risk assessment and risk management, criminal careers and offending trajectories, developmental criminology, and sexual offending over the life course. His work has been published in academic journals such as *Criminology*, *Criminal Justice and Behavior*, *Journal of Criminal Justice*, *Justice Quarterly*, *Journal of Quantitative Criminology*, and *Sexual Abuse*. Dr. Lussier is the Editor-in-Chief of the *Canadian Journal of Criminology and Criminal Justice*. He recently co-authored, with Dr. Evan McCuish (Simon Fraser University) and Dr. Jesse Cale (Griffith University), the book entitled *Understanding sexual offending: An evidence-based response to myths and misconceptions* (Springer, 2021)

PRE-CONFERENCE SEMINAR #2

(space is limited, register early!)

Sunday, April 14 - 13:00-16:00

Staying out of Trouble on the Stand: Avoiding and Mitigating Legal Pitfalls in Forensic Psychiatry

PRESENTER

Katharine Byrick

Partner – Health Law

BLG, Canada Law Firm

DISCUSSANTS

Philip Klassen, MD, FRCPC

Vice-President Medical Affairs and Research

Ontario Shores Centre for Mental Health Sciences

Assistant Professor, University of Toronto

Rakesh Lamba, MD, FRCPC

Medical Director,
Forensic Regional Clinics,
BC Mental Health and Substance Use Services

And more...

Learning Objectives:

At the end of the presentation, the participant will be able to:

1. Describe situations in which expert conduct/evidence has been criticized by the Court;
2. Identify key elements of due diligence for forensic psychiatric experts;
3. Appreciate nuances and best practices regarding expert evidence.

Description:

BLG's Health Law group, accompanied by senior forensic psychiatrists, will review landmark cases in which expert evidence was scrutinized by the Court, and offer both mitigating strategies, and general advice on due diligence. In an evolving legal landscape, this presentation will be of interest to students, early career forensic psychiatrists, and more seasoned physicians. The session will be interactive.

Bio – Katharine Byrick

Katharine Byrick is a partner at BLG, where she has practiced exclusively in health law for over 20 years. Katharine provides strategic and practical legal advice and support to hospital leadership and front line staff on a wide range of issues, including mental health, issues dealing with challenging patient care situations and navigating the sometimes complicated legal framework for patient care. Katharine acts for health care organizations and their staff in responding to medical malpractice litigation as well as before health care regulatory bodies, administrative tribunals and the Courts. Katharine is one of the co-authors of the OHA's *A Practical Guide to Mental Health and the Law* and is the author of the OHA's *Managing Transitions: A Guidance Document*.

PROGRAM

Saturday, April 13

15:00-17:00

On-site registration for Pre-Conference Seminars attendees only

3rd Floor

Sunday, April 14 – 9:00 - 16:00 (Pre-Conference Seminars)

08:00-09:00	On-site Registration	South Ballroom Foyer, 3rd Floor
09:00-12:00	PRE-CONFERENCE SEMINAR #1 (\$) Boot Camp on Forensic Clinical Sexology and New Thinking on Risk Assessment <i>Presenters:</i> Brad D. Booth, MD, FRCPC Alberto Choy, MD, FRCPC Philip Klassen, MD, FRCPC Patrick Lussier, PhD	
12:00-13:00	Lunch (included in pre-conference seminars registration)	
13:00-16:00	PRE-CONFERENCE SEMINAR #2 (\$) Staying out of Trouble on the Stand: Avoiding and Mitigating Legal Pitfalls in Forensic Psychiatry <i>Presenter:</i> Katharine Byrick Partner – Health Law, BLG, Canada Law Firm <i>Discussants:</i> Philip Klassen, MD, FRCPC Rakesh Lamba, MD, FRCPC And more...	

20-minute presentation: 15 min. + 5 min. Q&A
 40-minute presentation: 30 min. + 10 min. Q&A
 60-minute presentation: 45 min. + 15 min. Q&A

Sunday, April 14 (Annual Conference – Preliminary Agenda)

14:00-17:00	On-site Registration	South Ballroom Foyer, 3rd Floor
16:30-16:45	Welcoming Remarks and Fellowship Award	South Ballroom, 3rd Floor
16:45-17:45 (45 m. + 15 m. Q&A)	<ol style="list-style-type: none"> Opening presentation Strategic Collaboration: Driving Change Through Data & Relationships <i>Dr. Hygiea Casiano</i> <i>President, Canadian Psychiatric Association</i> <i>Medical Director, Adult Forensic Mental Health Services Forensic Psychiatrist & Child and Adolescent</i> <i>Assistant Professor, Department of Psychiatry, University of Manitoba</i> 	
18:00-19:00	Welcome Reception	English Bay, 3rd Floor

Monday, April 15 (Annual Conference)

CONCURRENT SESSIONS South Ballroom, 3rd Floor North Ballroom, 3rd Floor

	Correctional psychiatry	Secure Recovery
8:25-8:30	Welcome Moderator: Brad Booth	Welcome Moderator: Alberto Choy
8:30-8:50	2. Substance Use in a Correctional Setting <i>Presenter: Nickie Mathew</i>	7. Ethical Dilemmas in Coercive Interventions: Navigating the Complex Terrain of Forensic Psychiatry <i>Presenter: Gary Chaimowitz</i>
8:50-9:10	3. The Overrepresentation of FASD Among DOs in Canada <i>Presenter: Stephen Lee-Cheong</i>	8. Evaluating the Implementation of an Animal-Assisted Intervention in a Forensic Psychiatry Setting <i>Presenter: Bailea Erb</i>
9:10-9:30	4. A Scoping Review on the Abuse and Misuse Potential of Azapirones: Findings in Individuals with a History of Incarceration and Substance Use Disorder <i>Presenter: Carl Zhou</i>	9. The Importance of Shame and Guilt in Secure Recovery <i>Panel: Sergio Santana, Oluyemisi Ajeh, Priya Khalsa</i>
9:30-9:50	5. Nabilone for Treatment of PTSD Nightmares in Correctional Populations <i>Presenters: Andrew Bickle, Graham Glancy, Najat Khalifa</i>	
9:50-10:10	6. ADHD in Corrections – Peculiar Challenges and Practical Solutions <i>Panel: Natasha Usenko, Daniel J. Slick, Santoch S. Rai, Nickie Mathew, Keith G. Dawson</i>	10. Cultivating Confidence in the Practice of Secure Recovery Through Education of Forensic Interprofessional Staff <i>Presenter: Alexander Simpson</i>
10:10-10:30		11. Secure Recovery Care Education for Forensic Staff – A narrative review <i>Presenter: Alexander Simpson</i>

20-minute presentation: 15 min. + 5 min. Q&A
 40-minute presentation: 30 min. + 10 min. Q&A
 60-minute presentation: 45 min. + 15 min. Q&A

10h30-10h50 Networking break and Connect Café

CONCURRENT SESSIONS **South Ballroom, 3rd Floor** **North Ballroom, 3rd Floor**

	Bias, Gender and Culture Moderator: Pdraig Darby	PTSD/Terrorism Moderator: Roland Jones
10:50-11:10	12. Bias Management: Beating Baked in Bias Potential in Singapore <i>Presenters: Jason Lee, Todd Tomita</i>	15. The Psychic Life of Violence: Offence-related Posttraumatic Stress <i>Presenter: Juliette Dupré</i>
11:10-11:30	13. An Investigation of Racial Bias among Structured Professional Judgement Risk Ratings <i>Presenter: Neil Hogan</i>	16. PTSD Treatment Guidelines in Civil Law Cases <i>Presenters: Graham Glancy, Priya Khalsa</i>
11:30-11:50	14. Forensic Psychiatry across the Gender Binary: Issues in Housing and Care of Transgender Individuals <i>Panel: Kineta Valoo, Juliette Dupré</i>	17. Terrorism Typologies: Pitfalls and Future Directions <i>Panel: Najat Khalifa, Allen R. Dyer</i>
11:50-12:10		

12:10-13:30 Lunch for Residents (Free time for others)

Kitsilano & Kerrisdale, 3rd Floor

CONCURRENT SESSIONS **South Ballroom, 3rd Floor** **North Ballroom, 3rd Floor**

	Technology and Innovation Moderator: Phil Klassen	Systems and Infrastructure Moderator: Priya Khalsa
13:30 -13:50	18. Using DASA and APP to Reduce Aggression, Restraints and Seclusion, and PRN Use at a Tertiary Mental Health Hospital in Ontario <i>Presenters: Elizabeth Coleman, Cathy Duivesteyn</i>	22. System Impacts: How a Single Court Order can Impact Bed Flow <i>Presenters: Laetitia Eid, Amina Ali, Leisha Senko, Pdraig Darby</i>
13:50 - 14:10	19. AI Assisted Forensic Assessment: Future or Flop? <i>Presenter: Mario Moscovici</i>	23. Reforming the Forensic Mental Health System in Québec: A Provincial Project to Optimize Trajectories of Forensic Patients <i>Panel: Stéphanie Borduas-Pagé, Mathieu Dufour, Antoine Perreault</i>
14:10-14:30	20. Using Artificial Intelligence in Predicting Violence: How helpful is it now and could it be? <i>Presenters: George Wiehahn, Mario Moscovici</i>	
14:30-14:50	21. Pioneering the Future in Forensic Psychiatry Innovations <i>Panel: Gary Chaimowitz, Mini Mamak, Diana Marginean, Bailea Erb</i>	24. Infrastructure Change: How Toronto's Court Amalgamation Impacts Patient Pathways <i>Panel: Amina Ali, Laetitia Eid, Jennifer Lofft, Leisha Senko</i>
14:50-15h10		

15:10-15:30 Networking break and Connect Café

20-minute presentation: 15 min. + 5 min. Q&A
 40-minute presentation: 30 min. + 10 min. Q&A
 60-minute presentation: 45 min. + 15 min. Q&A

CONCURRENT SESSIONS **South Ballroom, 3rd Floor** **(North Ballroom, 3rd Floor)**

	Policy and Guidelines Moderator: Victoria Roth	Typologies/Risks Moderator: Brad Booth
15:30-15:50	25. The Canadian Guidelines for Forensic Psychiatry Assessment and Report Writing – Experiences, Evaluation and Impact One Year Later <i>Panel: Lisa Ramshaw, Mathieu Dufour</i>	29. A Novel Syndemic of Psychosis, Substance Use, Social Adversity, and Criminal Justice Involvement <i>Presenter: Bushra M. Khan</i>
15:50-16:10		30. Lifetime patterns of violence in a cohort of non-forensic patients with Schizophrenia Spectrum Disorders <i>Presenter: Alexander Simpson</i>
16:10-16:30	26. Application of the Canadian Guidelines for Forensic Psychiatry Assessments in New Brunswick’s Legal Practice from the Crown’s Perspective <i>Presenters: Yu Chen Yue, Lisa Ramshaw</i>	31. A Comparison of People with a Sexual Offence History and People with a Non-Sexual Offence History: Substance Use Patterns, Mental Health Needs, and Concurrent Disorders <i>Presenter: Austin Lam</i>
16:30-16:50	27. Developing Guidelines for the Causation Analysis in Civil Forensic Psychiatric Assessments <i>Panel: Maryana Kravtzenyuk, Charl Els, Mohit Singh, Brendan Leier, Barry Gelinias, Rose M. Carter</i>	32. Man’s Best Friend or More than Friends - Psychiatric, Legal and Ethical Approaches to Bestiality and Zoophilia <i>Panel: Bushra M. Khan, Kineta Valoo, Leisha Senko</i>
16:50-17:10		
17:10-17:30	28. Workplace Violence in the COVID Era: Harassment and Threats Against Public Health Professionals in Canada <i>Presenter: Cheryl Regehr</i>	33. Violence Risk Management Tools Used in Forensic and Acute Psychiatry in North America: a Literature Review <i>Presenters: Maria A. Rosca, Alexandre Hudon</i>
18:00-18:30	Cocktail	
18:30-19:30	Moderator: Phil Klassen 34. Risk Assessment and Management In Online Sexual Offending <i>Michael Seto, Ph.D., C.Psych.</i> <i>Director, Forensic Research Unit,</i> <i>University of Ottawa’s Institute of Mental Health Research at The Royal</i> <i>Professor in Psychiatry, University of Ottawa</i>	South Ballroom, 3rd Floor
19:30	Dinner	

Tuesday, April 16 (Annual Conference)

	New Research/Training - Moderator: Mario Moscovici	South & North Ballroom
8:25-8:30	Welcome	
8:30-8:50	35. Examining Retinal Abnormalities in Psychiatric Patients with Schizophrenia using an Electroretinogram <i>Presenter: Arianna Davids</i>	
8:50-9:10	36. It is Advantageous to Have High Psychopathic Traits Unless you Meet Someone of your own Kind: Experimental Results from the Prisoner’s Dilemma <i>Presenter: Nathan Kolla</i>	
9:10-9:30	37. A Bibliometric Analysis of Research in the Field of Forensic Psychiatry <i>Presenter: Mark Mohan Kaggwa</i>	
9:30-9:50	38. The Needs and Wants of a Medical Student in a Forensic Psychiatry Learning Environment <i>Presenters: Genna Di Pinto, Claudia Wakulchyk, Curtis Woods, Maryana Kravtzenyuk</i>	
9:50-10:10	39. Seeking Out-of-Province Forensic Psychiatry Training - A Tale of Three Psychiatrists <i>Presenters: Julie Bérubé-Fortin, Xiang (Sean) Li, Lily Van</i>	

20-minute presentation: 15 min. + 5 min. Q&A
 40-minute presentation: 30 min. + 10 min. Q&A
 60-minute presentation: 45 min. + 15 min. Q&A

10:10-10:40 Networking break and Connect Café

	Community/Absconding - Moderator: Julie Bérubé-Fortin	South & North Ballroom
10:40-11:00	40. Staff Supervised Community Access for Forensic Psychiatric Patients: Patient Demographics, Risk Characteristics, and Adverse Events <i>Presenter: Christian Farrell</i>	
11:00-11:20	41. Media Representation and Public Perception of Forensic Absconders <i>Presenters: Hira Aslam, Mark Kaggwa</i>	
11:20-11:40	42. Retrospective Qualitative and Descriptive Analysis of Community Treatment Orders in the Province of Quebec for the Year 2022 <i>Presenters: Alexandre Hudon, Ann-Julie Huberdeau, Jad Awad</i>	
11:40-12:00	43. No Longer a Significant Threat? Patterns and Predictors of Reoffending Post Absolute Discharge <i>Presenter: Roland Jones</i>	
12:00-13:15 (15 m. to get lunch box) 45 m. + 15 m. Q&A	Lunch presentation Moderator: Rakesh Lamba 44. National Trajectory Project–Community (NTP-C): A Pan-Canadian Exploration of Opportunities and Obstacles to Successful Community Reintegration of Canadian Forensic Psychiatric Patients <i>Presenters: Tonia Nicholls, Ann Crocker</i>	South & North Ballroom
13:15-13:45	45. Poster Session A. Survival of the Fitness: On the Evolution of Standing Trial in Canada (Dennis E. Curry) B. Survey of Perceived Barriers to Forensic Psychiatry Training (Jiyoung Hwang) C. Schizophrenia Spectrum and Other Psychotic Disorders in Intrafamilial Homicide (Shuying Zheng) D. System Redesign to Address Solitary Confinement – Toolkit for Healthcare Providers (Austin Lam) E. Cultural Safety in Forensic Mental Health Services: A Literature Review (Yang Bo Zhang) F. Psychiatry in the Metaverse: A Needs-Based Framework for Metaverse Mental Health Support (Tomer Jordi Chaffer)	Kitsilano & Kerrisdale, 3rd Floor

13:45-14:00 Networking break and Connect Café

	Fitness/Capacity/High Risk Accused - Moderator: Victoria Roth	South & North Ballroom
14:00-14:20	46. Complex Presentations for Fitness to Stand Trial - a Case of Folie à Deux and Intellectual Disability <i>Presenter: Floyd Wood, Jiyoung Hwang</i>	
14:20-14:40	47. R v Bharwani: Fitness to Stand Trial – Where Are We Now? Has it changed? <i>Presenters: Joanne Capozzi, Maryana Kravtsenyuk</i>	
14:40-15:00	48. Why the West is Best; Comparing Treatment Capacity Under the MHA BC vs ON <i>Presenter: Georgia Walton</i>	
15:00-15:20	49. High Risk Accused (HRA): A follow-up on Recent Experiences in Québec (Highest Numbers of HRA) and a Review of Characteristics of NCR-MD Designated HRA <i>Panel: Mathieu Dufour (Chair), Rebecca L. Douglas</i>	
15:20-15:40		
15:40-16:00	50. Fitness Redefined? An Analysis of the Recent Bharwani Decision <i>Presenter: Shawn Baldeo</i>	

16:15-17:45	AGM (For CAPL members only)	South & North Ballroom
18:30-20:00	Pub – Steamworks Brew Pub (\$) : 15-min walk (375 Water Street)	

20-minute presentation: 15 min. + 5 min. Q&A
 40-minute presentation: 30 min. + 10 min. Q&A

Wednesday, April 17 (Annual Conference)

	Therapeutics/Risk Management - Moderator: Rakesh Lamba South & North Ballroom
9:00-9:20	51. A Winning Combination? Amisulpride and Clozapine for Treatment-Resistant Schizophrenia in Forensic Inpatients <i>Presenters: Melanie Strike, Amanjot Sandhu, Esa Leinonen</i>
9:20-9:40	52. Reboot - the Washout Experience <i>Presenters: Julie Bérubé-Fortin, Marieke Berwald, Isabelle Combey</i>
9:40-10:00	53. Changing Habits Around Nicotine Replacement Therapy in a Secure Mental Health Setting <i>Presenters: Amanjot Sandhu, Melanie Strike, Esa Leinonen</i>
10:00-10:20	54. The use of Non-Invasive Brain Stimulation Techniques to Modulate Criminogenic Risk Factors: New Frontiers in Forensic Psychiatry <i>Panel: Najat Khalifa, Andrew Bickle</i>
10:20-10:40	
10:40-11:00	55. Serving a Life Sentence for Assault: An Interdisciplinary Approach to the Management of Complex and Long-term Patients Under the Provincial Review Board <i>Panel: Misha Hartfeil, Cathy Duivesteyn, Andrea Gibas, Mackenzie Brooks</i>
11:00-11:20	
11:20	Closing Remarks

ACCOMMODATION

We strongly recommend that you book your room as soon as possible as we have a limited number of rooms at our group rate. Please book online [HERE](#)

The base rate starts at 299\$.

The number of rooms must be made **before March 16th, 2024**, upon availability.

ROOM BLOCK IS SOLD OUT

SPECIFIC LEARNING OBJECTIVES

At the end of the presentation, participants will be able to:

1. Strategic Collaboration: Driving Change Through Data & Relationships

PRESENTER: Hygiea Casiano

- Appreciate the journey of revamping the forensic program in Manitoba
- Describe the advantages of using data to drive policy changes, using the example of the Manitoba Centre for Health Policy data repository
- Consider how to strategically collaborate on a national scale to help drive policy change

2. Substance Use in a Correctional Setting

AUTHOR: Nickie Mathew

- Recognize the toxidromes related to medications that are used non-medically in a correctional setting
- Understand the dangers of medication diversion
- Understand the institutional and clinical management of substance use in a correctional setting

3. The Overrepresentation of FASD Among DOs in Canada

AUTHORS: Dr. Stephen Lee-Cheong, Mansfield Mela, Monique Reboe-Benjamin

- Describe the link between FASD and the CJS
- Describe the overrepresentation of FASD among DOs in Canada
- Identify the need for prompt screening and diagnosis of FASD

4. A Scoping Review on the Abuse and Misuse Potential of Azapirones: Findings in Individuals with a History of Incarceration and Substance Use Disorder

AUTHORS: Carl Zhou, Philip Yu, Andrew Toyin Olagunju

- Gain insight into how and why azapirones are abused
- Identify who may be at elevated risk for azapirone abuse
- Identify what can be done to prevent azapirone abuse

5. Nabilone for Treatment of PTSD Nightmares in Correctional Populations

AUTHORS: Kayley Ogilvie-Turner, Andrew Bickle, Graham Glancy, Najat Khalifa

- Provide an overview of current PTSD treatment guideline
- Discuss the challenges associated with assessment of PTSD including misattribution and malingering
- Discuss the case for and against use of Nabilone for treatment of PTSD in correctional settings

6. ADHD in Corrections – Peculiar Challenges and Practical Solutions

AUTHORS: Natasha Usenko, Daniel J. Slick, Santoch S. Rai, Nickie Mathew, Keith G. Dawson

- Describe the association between untreated ADHD, patient distress, impaired psychosocial functioning, and criminogenic risk with respect to the RNR model
- Understand the peculiar challenges of assessing and treating ADHD with stimulant medication in both federal and provincial correctional facilities.
- Apply practical solutions to most effectively diagnose and manage ADHD in correctional settings in Canada

7. Ethical Dilemmas in Coercive Interventions: Navigating the Complex Terrain of Forensic Psychiatry

AUTHOR: Dr. Gary A. Chaimowitz

- Describe the ethical issues behind coercive interventions in forensic psychiatry
- Navigate the ethical issues arising out of the use of coercion in forensic psychiatry
- Consider alternatives to the use of coercion in forensic psychiatry

8. Evaluating the Implementation of an Animal-Assisted Intervention in a Forensic Psychiatry Setting

AUTHORS: Dr. Mini Mamak, Dr. Gary Chaimowitz, Dr. Heather Moulden, Ms. Bailea Erb, Ms. Amara Robbins, Ms. Arianna Davids, Ms. Ashley Palmer, Ms. Kelly Bulley

- Provide an overview of Animal-Assisted Intervention (AAI), understanding its fundamental concepts and goals in therapeutic settings
- Evaluate the impact of AAI on the psychological and physical well-being of forensic psychiatry staff and patients
- Apply research findings to inform and guide the implementation of AAI as a potential evidence-based practice in forensic psychiatry

9. The Importance of Shame and Guilt in Secure Recovery*AUTHORS: Dr. Sergio Santana, Dr. Oluyemisi Ajeh, Priya Khalsa*

- Discuss how shame and guilt influences the recovery of forensic patients
- Understand interventions utilized in deconstructing shame and guilt in the process of recovery
- Discuss the relevance of families when working with shame and guilt

10. Cultivating Confidence in the Practice of Secure Recovery Through Education of Forensic Interprofessional Staff*AUTHORS: Shaheen Darani, Sandy Simpson, Stephanie Penney, Courtney Brennan, Remar Mangaoil, Faisal Islam, Treena Wilkie*

- Describe the process of recovery
- Define recovery oriented care
- Summarize the learning needs in recovery oriented care amongst forensic inter-professional care staff

11. Secure Recovery Care Education for Forensic Staff – A narrative review*AUTHORS: Shaheen Darani, Elena Wolff, Amanda Jass, Sandy Simpson*

- Define recovery oriented care
- Describe effective secure recovery education
- Summarize the central theme associated with recovery

12. Bias Management: Beating Baked in Bias Potential in Singapore*AUTHORS: Dr. Jason Lee, Dr. Todd Tomita*

- Understand that that potential bias is inherent to the role the forensic assessor undertakes in conducting forensic evaluations
- Appreciate the role that forensic psychiatric assessment guidelines play in providing a practice metric to measure potential bias in a forensic evaluation
- Identify potential biases that practioners may have in different forensic assessor roles - prosecution or defence expert or court appointed assessor

13. An Investigation of Racial Bias among Structured Professional Judgement Risk Ratings*AUTHORS: Dr. Neil R. Hogan, Dr. Gabriela Corabian*

- Identify specific vulnerabilities to racial bias within the Structured Professional Judgement (SPJ) approach to violence risk assessment
- Describe empirical findings related to the racial on Structured Professional Judgement (SPJ) violence risk ratings
- Articulate defences of the SPJ approach to violent risk assessment, with respect to the potential for racial disparities

14. Forensic Psychiatry across the Gender Binary: Issues in Housing and Care of Transgender Individuals*AUTHORS: Kineta Valoo, Kineta Valoo, Ipsita Ray*

- Understand the unique challenges and healthcare considerations for trans and gender-diverse populations in forensic psychiatric settings
- Understand recommendations for the provision of gender-affirming care in institutional settings, as outlined by the World Professional Association for Transgender Health (WPATH) Standards of Care
- Consider and discuss the ethical and clinical challenges forensic psychiatric teams may encounter when working with trans and gender-diverse individuals

15. The Psychic Life of Violence: Offence-related Posttraumatic Stress*AUTHOR: Juliette Dupré*

- Identify individual risk factors for offence-related PTSD
- Understand how the social context of violence influences its consequences on the perpetrator
- Integrate an understanding of offence-related PTSD into forensic practice

16. PTSD Treatment Guidelines in Civil Law Cases*AUTHORS: Graham Glancy, Priya Khalsa*

- Understand the current first-line guideline recommendations for PTSD psychotherapy
- Understand the current first-line guideline recommendations for PTSD treatment length
- Appreciate PTSD treatment in the context of civil litigation

17. Terrorism Typologies: Pitfalls and Future Directions*AUTHORS: Najat Khalifa, Philip J. Candilis, Sean D. Cleary, Allen R. Dyer*

- Describe terrorism typologies
- Have knowledge of the limitations of and challenges associated with terrorism research
- Identify areas for future research

18. Using DASA and APP to Reduce Aggression, Restraints and Seclusion, and PRN Use at a Tertiary Mental Health Hospital in Ontario*AUTHORS: Dr. Elizabeth Coleman, Cathy Duivesteyn*

- Discuss the application of the DASA and APP in forensic settings
- Describe the benefits of combining the DASA and the APP
- Discuss the potential to reduce aggression and restrictive practices by applying the DASA and APP real time data in a forensic inpatient service

19. AI Assisted Forensic Assessment: Future or Flop?*AUTHORS: Mario Moscovici, Xiang (Sean) Li, Johann Brink, Roland M. Jones*

- Understand how AI can be used to assist forensic psychiatrists in clinical care
- Discuss the feasibility of AI in generating forensic psychiatric opinions
- Discuss the role of bias in AI assisted assessments

20. Using Artificial Intelligence in Predicting Violence: How helpful is it now and could it be?*AUTHORS: George Wiehahn, Mario Moscovici, Robert McMaster, Roland Jones*

- Demonstrate how AI is applied in predicting violence, as reflected by the current literature
- Discuss how helpful it currently is in predicting violent behaviour in clinical settings according to current literature
- Describe the potential usefulness in the future as projected in the current literature

21. Pioneering the Future in Forensic Psychiatry Innovations*AUTHORS: Dr. Gary Chaimowitz, Dr. Mini Mamak, Ms. Diana Marginean, Ms. Bailea Erb*

- Evaluate the potential benefits and challenges associated with integrating these technologies into the forensic psychiatry system, with a focus on improving patient outcomes and staff education
- Identify alternative applications for these technologies in diverse scenarios and understand how technology can be leveraged to enhance patient satisfaction while maintaining ethical and legal considerations
- Assess the impact of these educational innovations on fostering an environment of curiosity and creativity among healthcare professionals, ultimately contributing to continuous improvement in patient care and research capabilities

22. System Impacts: How a Single Court Order can Impact Bed Flow*AUTHORS: Dr. Laetitia Eid, Dr. Amina Ali, Leisha Senko, Dr. Padraig Darby*

- Understand the difference between a Treatment Order and a Warrant of Committal Unfit
- Learn the pathway for individuals on WOCs and on TOs
- Discuss the forensic system impact of these legal orders

23. Reforming the Forensic Mental Health System in Québec: A Provincial Project to Optimize Trajectories of Forensic Patients*AUTHORS: Dr. Kim Bédard-Charrette, Dr. Stéphanie Borduas-Pagé, Dr Mathieu Dufour, Dr. Antoine Perreault, Dr. Valérie Trottier-Hébert*

- Review the current organization of the Forensic system in Quebec including data of forensic assessments and patients under the Review Board
- Discuss the implications of using the DUNDRUM tools
- Explore possible optimizations of the trajectories of forensic patients

24. Infrastructure Change: How Toronto's Court Amalgamation Impacts Patient Pathways*AUTHORS: Dr. Amina Ali, Dr. Laetitia Eid, Ms. Jennifer Lofft, Ms. Leisha Senko*

- Understand specific challenges from the Toronto Courthouse amalgamation
- Determine lessons learned/opportunities for growth in future amalgamations
- Discuss the impact of this change

25. The Canadian Guidelines for Forensic Psychiatry Assessment and Report Writing – Experiences, Evaluation and Impact One Year Later*AUTHORS: Lisa Ramshaw, Mathieu Dufour*

- Describe the framework and components of the Guidelines
- Appreciate the complexities that accompany the use of Guidelines in various contexts
- Consider the use of Guidelines in their own practice

26. Application of the Canadian Guidelines for Forensic Psychiatry Assessments in New Brunswick's Legal Practice from the Crown's Perspective*AUTHORS: Rebekah Logan, Malika Levesque, Yu Chen Yue, Lisa Ramshaw*

- Identify the variations in the rate of NCR court cases among the reporting provinces and territories
- Discuss the hypotheses about New Brunswick's highest rate of NCR court cases in Canada
- Discuss feedback from New Brunswick's Crown prosecutors on the use of the Canadian Guidelines for Forensic Psychiatry Assessments in provincial courts

- 27. Developing Guidelines for the Causation Analysis in Civil Forensic Psychiatric Assessments**
AUTHORS: Maryana Kravtseyuk, Charl Els, Mohit Singh, Brendan Leier, Barry Gelinas, Rose M. Carter
- Understand the legal tests for causation in civil forensics
 - Examine aspects of causations analysis as it applies to practice
 - Identify the key practical points for causation analysis for the future guidelines development
- 28. Workplace Violence in the COVID Era: Harassment and Threats Against Public Health Professionals in Canada**
AUTHOR: Cheryl Regehr
- Explain the nature of cyberviolence against professionals
 - Enumerate the possible consequences of cyberviolence against professionals
 - Describe the cycle of cyberviolence against professionals
- 29. A Novel Syndemic of Psychosis, Substance Use, Social Adversity, and Criminal Justice Involvement**
AUTHORS: Bushra M. Khan, Alexander I.F. Simpson
- Define "syndemic" and understand the history underlying syndemic theory
 - Apply syndemic theory to the current literature that describes relationships between mental illness and criminalization
 - Consider a novel syndemic that integrates psychosis, substance use, criminal justice involvement and social adversity and forthcoming quantitative research
- 30. Lifetime patterns of violence in a cohort of non-forensic patients with Schizophrenia Spectrum Disorders**
AUTHOR: Alexander Simpson
- Understand the importance of life course trajectories in violence
 - Understand how different developmental and clinical factors can be relevant to violence in psychosis
 - Understand possible links to genetic factors
- 31. A Comparison of People with a Sexual Offence History and People with a Non-Sexual Offence History: Substance Use Patterns, Mental Health Needs, and Concurrent Disorders**
AUTHORS: Austin Lam, Tonia Nicholls, Amanda Butler, Sirui Wu, Maureen Olley, Leigh Greiner
- Describe substance use patterns and mental health needs among individuals with sexual offences
 - Describe differences in substance use patterns and mental health needs between individuals with sexual offences compared to individuals with strictly non-sexual offences
 - Identify clinical characteristics differentiating the group of individuals with sexual offences that may inform prevention and treatment targets
- 32. Man's Best Friend or More than Friends - Psychiatric, Legal and Ethical Approaches to Bestiality and Zoophilia**
AUTHORS: Bushra M. Khan, Kineta Valoo, Leisha Senko, Paul Benassi
- Understand the key definitions and diagnostic and legal differences between zoophilia, interest in sex with animals and bestiality
 - Identify how zoophilia may be related to other sexual behaviours and aspects that require clarification in paraphilia assessments
 - Appreciate the legal considerations of sex with animals including identifying seminal Canadian case law, amendments to the criminal code, comparison between Canadian and international law and finally, reporting requirements for practitioners
- 33. Violence Risk Management Tools Used in Forensic and Acute Psychiatry in North America: a Literature Review**
AUTHORS: Maria Alexandra Rosca, Olivier La Charité-Harbec, Jeanne-Marie Allard, Stephanie Borduas-Pagé, Alexandre Hudon
- Recognize the risk violence in psychiatry units in North America
 - Use different risk management tools for violence in psychiatric units in North America
 - Describe the performance of these tools
- 34. Risk Assessment and Management In Online Sexual Offending**
PRESENTER: Michael Seto
- List three major forms of online sexual offending
 - Identify three valid risk assessment tools for individuals convicted of child sexual exploitation material offenses
 - Describe important intervention targets for individuals convicted of online sexual offending.

35. Examining Retinal Abnormalities in Psychiatric Patients with Schizophrenia using an Electroretinogram

AUTHORS: Dr. Mini Mamak, Dr. John Bradford, Dr. Gary Chaimowitz, Dr. Heather Moulden, Dr. Sebastien Prat, Ms. Arianna Davids, Ms. Bailea Erb, Ms. Amara Robbins

- Understand the key components of the ERG waveform (a-wave, b-wave, PhNR, & OPs) and what information they convey
- Compare ERG recordings from individuals with schizophrenia to recordings from healthy controls
- Critically evaluate and apply the novel use of ERG as a tool to future psychiatric research

36. It is Advantageous to Have High Psychopathic Traits Unless you Meet Someone of your own Kind: Experimental Results from the Prisoner's Dilemma

AUTHORS: Nathan J. Kolla, Lloyd Balbuena

- Understand the adaptive model of psychopathy
- Understand the Prisoner's Dilemma Game
- Understand the Levenson Self-Report Psychopathy Scale

37. A Bibliometric Analysis of Research in the Field of Forensic Psychiatry

AUTHORS: Mark Mohan Kaggwa, Gary Andrew Chaimowitz, Bailea Erb, Sébastien Prat, Arianna Davids, Heather Moulden, John Bradford, Andrew Toyin Olagunju

- Describe the trends in forensic psychiatry research and main areas studied
- Enumerate the major players (researchers and institutions) in forensic psychiatry research
- Gain some knowledge about bibliometric analysis

38. The Needs and Wants of a Medical Student in a Forensic Psychiatry Learning Environment

AUTHORS: Genna Daniela Di Pinto, Claudia Wakulchyk, Curtis Woods, Maryana Kravtsenyuk

- Learn about current aspects of exposure to forensic psychiatry in medical school
- Understand the perspective of the undergraduate medical trainee and what appeals to them to choose the field of forensic psychiatry
- Understand the next step that are needed in the field of forensic psychiatry to better recruit and retain future generations of specialists

39. Seeking Out-of-Province Forensic Psychiatry Training - A Tale of Three Psychiatrists

AUTHORS: Julie Bérubé-Fortin, Xiang (Sean) Li, Lily Van

- Understand the potential benefits and challenges of mobility during postgraduate training
- Discuss personal experiences of mobility across Canadian provinces and its impact on future forensic psychiatry practice
- Explore strategies for preparing for an out-of-province educational experience

40. Staff Supervised Community Access for Forensic Psychiatric Patients: Patient Demographics, Risk Characteristics, and Adverse Events

AUTHORS: Christian Farrell, Karen L. Petersen, Peri Hanzouli, Tonia L. Nicholls

- Define staff supported community outings (SSCO) and understand the nature and therapeutic benefits SSCOs offer to forensic patients
- Describe the sociodemographic, clinical, and risk characteristics of patients who attend SSCO
- Develop an understanding of the frequency and nature of adverse events that occurred during patient outings into the community

41. Media Representation and Public Perception of Forensic Absconders

AUTHORS: Ms. Hira Aslam, Dr. Mark Kaggwa, Ms. Arianna Davids, Dr. John Bradford, Dr. Heather Moulden, Dr. Mini Mamak, Dr. Gary Chaimowitz

- Understand how forensic absconders are characterized in the media
- Develop a more nuanced understanding of how the community perceives incidents of forensic absconding
- Understand how media representation of forensic absconders contributes to stigmatization of this group

42. Retrospective Qualitative and Descriptive Analysis of Community Treatment Orders in the Province of Quebec for the Year 2022

AUTHORS: Alexandre Hudon, Ann-Julie Huberdeau, Jad Awad, Stéphanie Borduas Pagé

- Identify the demographical situation of CTOs in the province of Quebec
- Recognize the risk factors and clinical data presented in the CTOs judgments and their relationship with the outcome of the requests for CTOs
- Identify the proportion of patients for whom CTOs are requested and who are under the aegis of the provincial Review Board

43. No Longer a Significant Threat? Patterns and Predictors of Reoffending Post Absolute Discharge*AUTHORS: Roland Jones, Alexander Simpson, Tamsen Kitt, Marco Kilada, Stephanie Penney*

- Describe rates of reoffending post absolute discharge
- Discuss predictors of reoffending in this population
- Explain utility and limitations of risk prediction models for this population

44. National Trajectory Project–Community (NTP-C): A Pan-Canadian Exploration of Opportunities and Obstacles to Successful Community Reintegration of Canadian Forensic Psychiatric Patients*PRESENTERS: Tonia Nicholls, Ann Crocker*

- Describe the psychosocio-criminological characteristics, risks and needs of Canadian forensic psychiatric patients
- Discuss post-discharge trajectories of people returning to the community from admissions to forensic psychiatric hospitals across Canada
- Articulate implications for practice

45. Poster Session**A. Survival of the Fitness: On the Evolution of Standing Trial in Canada***AUTHORS: Dennis E. Curry, Ajay Prakash*

- Describe Canadian legislative history related to the fitness rules
- Describe historical case law in relation to the fitness rules
- Describe the concepts of best interests as they relate to the fitness regime

B. Survey of Perceived Barriers to Forensic Psychiatry Training*AUTHORS: Jiyoun Hwang, Mariska Batohi, Elise Lowden, Hygiea Casiano*

- Describe the current barriers for general psychiatry residents seeking training in forensic psychiatry
- Identify misconceptions held by general psychiatry residents about forensic psychiatry subspecialty program and forensic psychiatrist's scope of practice
- Discuss ways to address these barriers and misconceptions

C. Schizophrenia Spectrum and Other Psychotic Disorders in Intrafamilial Homicide*AUTHORS: Jiyoun Hwang, Shuying Zheng, Pierre Gagné, Dominique Bourget*

- List the types of intrafamilial homicide and identify the most common type linked to psychosis
- Identify indicators for increased risk of violence in predisposed individuals
- Understand the prevalence of psychotic symptoms that lead to intrafamilial homicides

D. System Redesign to Address Solitary Confinement – Toolkit for Healthcare Providers*AUTHORS: Austin Lam, Claire Bodkin, Michael Menconi, Baijayanta Mukhopadhyay, Jenna Webber, Nooshin Nikoo, Ruth Elwood Martin*

- Explain ongoing work by the College of Family Physicians of Canada (CFPC) Prison Health Member Interest Group Section (MIGS) to develop a toolkit to address solitary confinement
- Describe the purpose and context of the toolkit for healthcare providers
- Discuss efforts being made by the CFPC Prison Health MIGS to support healthcare providers to contribute to system redesign and reform addressing solitary confinement

E. Cultural Safety in Forensic Mental Health Services: A Literature Review*AUTHORS: Yang Bo Zhang, Treena Wilkie, Leighton Schreyer*

- Appreciate the significance of cultural safety within forensic mental health services
- Identify barriers and facilitators of cultural safety within forensic mental health services
- Review and consider recommendations regarding cultural safety strategies within practice, research, and/or policies

F. Psychiatry in the Metaverse: A Needs-Based Framework for Metaverse Mental Health Support*AUTHORS: Tomer Jordi Chaffer, Claudia Lamschtein*

- Describe elements like secure communication and user-friendly interfaces tailored for the metaverse, enhancing understanding and application in virtual mental health settings
- assessing metaverse platforms, discerning their capabilities and potential risks for individuals with mental health conditions, aiding informed platform selection
- Navigate ethical challenges related to sexual assault incidents in virtual environments, addressing issues of informed consent, user privacy, and ethical forensic psychiatry practices

46. Complex Presentations for Fitness to Stand Trial - a Case of Folie à Deux and Intellectual Disability*AUTHORS: Floyd Wood, Jiyoun Hwang*

- Utilize strategies to restore fitness when folie à deux is present
- Describe strategies to implement therapeutic jurisprudence for individuals with intellectual disabilities
- Apply strategies to reduce recidivism for individuals with intellectual disabilities

47. R v Bharwani: Fitness to Stand Trial – Where Are We Now? Has it changed?*AUTHORS: Joanne Capozzi, Maryana Kravtsenyuk*

- Realize the potential impacts of R v Bharwani in judicial process
- Identify changes that occurred in the Mental Health Court room following an updated case law
- Describe the current state of the law on fitness to stand trial and explore its potential effects on forensic psychiatric evaluation

48. Why the West is Best; Comparing Treatment Capacity Under the MHA BC vs ON*AUTHOR: Georgia Walton*

- Understand differences in treatment capacity between MHA BC and ON
- Comprehend how capacity legislation is applied by psychiatrists in the Interior Health Authority, BC
- Consider potential changes to MHA BC given current charter challenge

49. High Risk Accused (HRA): A follow-up on Recent Experiences in Québec (Highest Numbers of HRA) and a Review of Characteristics of NCR-MD Designated HRA*AUTHORS: Rebecca L. Douglas, Mathieu Dufour, Annie-Pierre Ouimet-Comtois, Zoë Selhi, Zoe Fletcher*

- Review the HRA criteria and its implications for outing privileges
- Compare the population of HRA accused with the NCR accused sample described in the National Trajectory Project (NTP)
- Explore the implications of recent Superior Court decisions with regards to HRA

50. Fitness Redefined? An Analysis of the Recent Bharwani Decision*AUTHOR: Shawn Baldeo*

- Explain the *Taylor* decision and its influence on fitness assessments
- Understand the Ontario Court of Appeal's decision in *R v Bharwani*, [2023] OJ No. 1208 and its potential impact on fitness assessments
- Describe possible interpretations of key terms within the Bharwani decision which can shift the bar for fitness to a higher standard

51. A Winning Combination? Amisulpride and Clozapine for Treatment-Resistant Schizophrenia in Forensic Inpatients*AUTHORS: Melanie Strike, Amanjot Sandhu, Esa Leinonen*

- Understand the societal and individual burden of treatment-resistant schizophrenia among the forensic inpatient population, in particular clozapine-refractory illness
- Recognize the link between violence risk and clozapine-resistant positive symptoms of schizophrenia in forensic patients
- Appreciate the potential role for the atypical antipsychotic amisulpride in optimizing positive schizophrenia symptoms in clozapine-refractory individuals

52. Reboot - the Washout Experience*AUTHORS: Julie Bérubé-Fortin, Marieke Berwald, Isabelle Combey, Nancy Légaré*

- Explore the rationale for medication washout
- Understand the theoretical basis and research into medication washout
- Use a framework on how to conduct a medication washout

53. Changing Habits Around Nicotine Replacement Therapy in a Secure Mental Health Setting*AUTHORS: Amanjot Sandhu, Melanie Strike, Esa Leinonen*

- Describe one way to address the misuse of nicotine replacement therapy
- Discuss the cost associated with nicotine replacement therapy at a program level
- Enumerate ways to address smoking cessation in a secure mental health setting

54. The use of Non-Invasive Brain Stimulation Techniques to Modulate Criminogenic Risk Factors: New Frontiers in Forensic Psychiatry*AUTHORS: Najat Khalifa, Andrew Bickle*

- Discuss the basic principles of Non-Invasive Brain Stimulation (NIBS) techniques such Transcranial Magnetic Stimulation (TMS) and transcranial Direct Current Stimulation (tDCS)
- Discuss the potential applications of TMS and tDCS in forensic practice
- Identify areas for future research

55. Serving a Life Sentence for Assault: An Interdisciplinary Approach to the Management of Complex and Long-term Patients Under the Provincial Review Board*AUTHORS: Misha Hartfeil, Cathy Duivesteyn, Andrea Gibas, Mackenzie Brooks*

- Identify factors which contribute to longer duration of forensic mental health system involvement
- Develop an interdisciplinary team approach to the management of this patient population
- Address challenges and obstacles to this approach from the perspective of various disciplines.
